All Along Bob Dylan: America and the World offers an important contribution to thinking about the artist and his work. Adding European and non-English speaking contexts to the vibrant field of Dylan studies, the volume covers a wide range of topics and methodologies while dealing with the inherently complex and varied material produced or associated with the iconic artist. The chapters, organized around three broad thematic sections (Geographies, Receptions and Perspectives), address the notions of audience, performance and identity,

allowing to map out the structure of feeling and authenticity, both, in the case of the artist and his audience.

Taking its cue from the collapse of the so-called high-/ low culture split following from the Nobel Prize, the book explores the argument that Dylan (and all popular music) can be interpreted as literature and offers discussions in the context of literary traditions, or visual culture and music. This contributes to a nuanced and complex portrayal of the seminal cultural phenomenon called Bob Dylan.

New Libraries in Old Buildings Knopf
 A New York Times Notable Book Empress Dowager Cixi (1835–1908) is the most important woman in Chinese history. She ruled China for decades and brought a medieval empire into the modern age. At the age of sixteen, in a nationwide selection for royal consorts, Cixi was chosen as one of the emperor's numerous concubines. When he died in 1861, their five-year-old son succeeded to the throne. Cixi at once launched a palace coup against the regents appointed by her husband and made herself the real ruler of China—behind the throne, literally, with a silk screen separating her from her officials who were all male. In this groundbreaking biography, Jung Chang vividly describes

how Cixi fought against monumental obstacles to change China. Under her the ancient country attained virtually all the attributes of a modern state: industries, railways, electricity, the telegraph and an army and navy with up-to-date weaponry. It was she who abolished gruesome punishments like “death by a thousand cuts” and put an end to foot-binding. She inaugurated women’s liberation and embarked on the path to introduce parliamentary elections to China. Chang comprehensively overturns the conventional view of Cixi as a diehard conservative and cruel despot. Cixi reigned during extraordinary times and had to deal with a host of major national crises: the Taiping and Boxer rebellions, wars with France and Japan—and an invasion by eight allied powers including Britain, Germany, Russia and the United States. Jung Chang not only records the Empress Dowager’s conduct of domestic and foreign affairs, but also takes the reader into the depths of her splendid Summer Palace and the harem of Beijing’s Forbidden City, where she lived surrounded by eunuchs—one of whom she fell in love, with tragic consequences. The world Chang describes here, in fascinating detail, seems almost unbelievable in its extraordinary mixture of the very old and the very new. Based on newly available, mostly Chinese, historical documents such as court records, official and private correspondence, diaries and eyewitness accounts, this biography will revolutionize historical thinking about a crucial period in China’s—and the world’s—history. Packed with drama, fast paced and gripping, it is both a panoramic depiction of the birth of modern China and an intimate portrait of a woman: as the concubine to a

monarch, as the absolute ruler of a third of the world’s population, and as a unique stateswoman.

Finding a proper balance between freedom and responsibility is a problem that has faced every serious Christian. For those raised in a highly structured religious environment, balancing loyalties to a religious organization, family, and personal conscience may raise difficult issues. Raymond Franz's first-hand account of the issues with which he struggled forms the theme of his first book, *Crisis of Conscience*. In *Search of Christian Freedom*, the sequel to *Crisis of Conscience*, provides even more comprehensive study. The issues

and options discussed herein, although relating particularly to the structure of Jehovah's Witnesses, are not so very different from issues other Christians have faced and continue to face when they seek to reconcile considerations for conscience, loyalty, responsibility and freedom. This work will mover readers — of any religion — to consider seriously how much they value Christian freedom and to ask how genuine their own freedom is.

In this groundbreaking union of art and science, rocker-turned-neuroscientist Daniel J. Levitin explores the connection between music—its performance, its composition, how we listen to it, why we enjoy it—and the human brain. Taking on prominent thinkers who argue that music is nothing more than an evolutionary accident, Levitin poses that music is fundamental to our species,

perhaps even more so than language. Drawing on the latest research and on musical examples ranging from Mozart to Duke Ellington to Van Halen, he reveals:

- How composers produce some of the most pleasurable effects of listening to music by exploiting the way our brains make sense of the world
- Why we are so emotionally attached to the music we listened to as teenagers, whether it was Fleetwood Mac, U2, or Dr. Dre
- That practice, rather than talent, is the driving force behind musical expertise
- How those insidious little jingles (called earworms) get stuck in our head

A Los Angeles Times Book Award finalist, *This Is Your Brain on Music* will attract readers of Oliver Sacks and David Byrne, as it is an unprecedented, eye-opening investigation into an obsession at the heart of human nature.

Teenage life is tough. You're at the mercy of parents, teachers, and siblings, all of whom insist on continuing to treat you like a kid and refuse to leave you alone. So what do you do when it all gets to be too much? You retreat to your room (and maybe slam the door). Even in our era of Snapchat and hoverboards, bedrooms remain a key part of teenage life, one of the only areas where a teen can exert control and find some privacy. And while these separate bedrooms only became commonplace after World War II, the idea of the teen bedroom has been around for a long time. With *Get Out of My Room!*, Jason Reid digs into the deep historical roots of the teen bedroom and its surprising cultural power. He starts in the first half of the nineteenth century, when urban-dwelling middle-class families began to consider

offering teens their own spaces in the home, and he traces that concept through subsequent decades, as social, economic, cultural, and demographic changes caused it to become more widespread. Along the way, Reid shows us how the teen bedroom, with its stuffed animals, movie posters, AM radios, and other trappings of youthful identity, reflected the growing involvement of young people in American popular culture, and also how teens and parents, in the shadow of ongoing social changes, continually negotiated the boundaries of this intensely personal space. Richly detailed and full of surprising stories and insights, *Get Out of My Room!* is sure to offer insight and entertainment to anyone with wistful memories of their teenage years. (But little brothers should definitely keep out.)

This is the first comparative analysis of the political transitions in South Africa and Palestine since the 1990s. Clarno's study is grounded in impressive ethnographic fieldwork, taking him from South African townships to Palestinian refugee camps, where he talked to a wide array of informants, from local residents to policymakers, political activists, business representatives, and local and international security personnel. The resulting inquiry accounts for the simultaneous development of extreme inequality, racialized poverty, and advanced strategies for securing the powerful and policing the poor in South Africa and Palestine/Israel over the last 20 years. Clarno places these transitions in a global context while arguing that a new form of neoliberal apartheid has emerged in both countries. The width and depth of Clarno's research,

combined with wide-ranging first-hand accounts of realities otherwise difficult for researchers to access, make *Neoliberal Apartheid* a path-breaking contribution to the study of social change, political transitions, and security dynamics in highly unequal societies. Take one example of Clarno's major themes, to wit, the issue of security. Both places have generated advanced strategies for securing the powerful and policing the racialized poor. In South Africa, racialized anxieties about black crime shape the growth of private security forces that police poor black South Africans in wealthy neighborhoods. Meanwhile, a discourse of Muslim terrorism informs the coordinated network of security forces involving Israel, the United States, Jordan, and the Palestinian Authority that polices Palestinians in the West Bank. Overall, Clarno's pathbreaking book shows how the shifting relationship between racism, capitalism, colonialism, and empire has generated inequality and insecurity, marginalization and securitization in South Africa, Palestine/Israel, and other parts of the world."

A CLASSIC FROM THE NEW YORK TIMES BESTSELLING AUTHOR OF THE THINGS THEY CARRIED "To call *Going After Cacciato* a novel about war is like calling *Moby-Dick* a novel about whales." So wrote *The New York Times* of Tim O'Brien's now classic novel of Vietnam. Winner of the 1979 National Book Award, *Going After Cacciato* captures the peculiar mixture of horror and hallucination that marked this strangest of wars. In a blend of reality and fantasy, this novel tells the story of a young soldier who one day lays down his rifle

and sets off on a quixotic journey from the jungles of Indochina to the streets of Paris. In its memorable evocation of men both fleeing from and meeting the demands of battle, *Going After Cacciato* stands as much more than just a great

war novel. Ultimately it's about the forces of fear and heroism that do battle in the hearts of us all. Now with Extra Libris material, including a reader's guide and bonus content
