The Crocheting could be the simplest way of creating fabric that ever existed in the world. Since all you need to create the fabric is some yarn, thread or any other material, your hands and a crochet hook, the process is widely adopted by many people across the world. Even though the art gets its name from France, courtesy of the small hook like crochet, the art has been perfected in other parts of the world. Understanding the basics of crocheting, therefore, is paramount before you try to master any patterns, be it Afghan or French patterns.
