Quarterly Review of Military Literature

Facts, photos, stories, and specs of one hundred remarkable flying machines, from the Sopwith Camel to the 747 to the supersonic F-22 Raptor. Of all humanity's dazzling innovations, perhaps none captures our imaginations or fuels our inventive spirits as much as flight. In our quest to soar higher, faster, and farther, we've dreamed up airborne wonders that are a sight to behold—like the supersonic F-22 Raptor, stealthily soaring above the clouds, or the Boeing-Stearman PT-17 Biplane, the beautiful starter model that helped a generation

earn their wings, or the deluxe Concorde—the first passenger jet to cruise at the speed of sound. These iconic aircraft—and ninety-seven more stunning feats of aeronautical engineering—make up the world’s most groundbreaking contributions to flight, all curated and collected here by the experts at Flying magazine. In *Flight: 100 Greatest Aircraft*, there’s something for every aviation aficionado—from brazen stunt planes to far-from-pedestrian commercial jets, from military marvels to spacecraft that reached dazzling new heights. With its spectacular full-color photographs, fascinating and informative text, and a detailed specifications

section, *Flight* is the essential book for pilots and plane-lovers everywhere.
