JAXON EMERSON

On Route in South Africa Carson-Dellosa Publishing

"Set on the campus of a Nigerian university, Double Yoke tells the story of Nko and Ete Kamba, a young undergraduate couple that must confront the conflicting demands of tradition and modernity. Nko pursues an education despite the resistance and rigid attitudes of those, like her husband, who feel that a woman's identity is defined through marriage. Her desire for an education severely tests her husband's love for her, and they both struggle with choices that are neither clear-cut nor perfect. Nko must further contend with unscrupulous professors who attempt to take advantage of her tenuous role as a woman in a male-dominated environment. In Double Yoke, Emecheta candidly portrays the status of women in emerging African nations and captures the urgency and complexity of the dilemmas they face."--Back cover.

"But blessed are your eyes, because they see; and your ears, because they hear." Matthew 13:16 You can hear the voice of your Lord. He is always speaking to you. In fact, every believer is called to have a one-on-one relationship with God because He longs to share sweet times of intimacy with all His children. How to Hear God's Voice will teach you to discern His voice from all the other voices that clamor for your attention. This book: Gives vital keys to increase the intimacy of your prayer time, Teaches you how to be still before the Lord, Helps you recognize His speech as spontaneous thoughts, Encourages you to seek vision while praying, and use a journal to record revelation. Your communion with God will become a flow of His words springing forth from your heart. You will experience a depth of relationship you never thought possible!

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Klasgids Augustus 2015 Hoerskool Fodor's

The Ruins of Us is a compelling, timely debut novel that explores the loneliness of expatriate life and the dangers of intolerance, as well as the things we'll do for love. More than two decades after moving to Saudi Arabia and marrying powerful Abdullah Baylani, American-born Rosalie learns that her husband has taken a second wife. That discovery plunges their family into chaos as Rosalie grapples with leaving the country, her life, and her family behind. Meanwhile, Abdullah and Rosalie's consuming personal entanglements blind them to the crisis approaching their sixteen-year-old son, Faisal, whose deepening resentment toward their lifestyle has led to his involvement with a controversial sheikh. When Faisal makes a choice that could destroy everything his embattled family holds dear, they all must confront difficult truths as they fight to preserve what remains of their world. The Ruins of Us is a timely story about intolerance, family, and the injustices we endure for love that heralds the arrival of an extraordinary new voice in contemporary fiction.

The Young Man and Civil Engineering LAPA Uitgewers

By addressing gender equality as a fundamental expression of human dignity and justice on our continent, this collage of 7 essays [by 14 women and 6 men], is meant to serve as a concrete alternative to aspects of gender inequality. Its format is particularly devised for use in the classroom, and for critical-constructive group engagement. It is our sincere prayer that it will also be used in imaginative ways by clergy and in congregations as a necessary part of adult learning programmes.

Basics of Structural Dynamics and Aseismic Design Carole Marsh Books

She is Helena Bosman, from a tiny little town lost in the vast expanses of the Northern Cape, but Grandpa and Grandma call her Vaselinetjie. She is their little angel from the veldt, the beginning and the end of their world. But when Vaselinetjie is ten years old, two officials from Welfare step in and she is sent away to a boarding school in Gauteng - the orphanage where Madiba's reject children have to live. It's a strange, hard, dangerous world of scum children, bad-tempered matrons and a harsh, unfair principal; a world of smoking cigarette butts, having one's hair shaved off and making plans to run away. It's a world where no one bothers about anyone else, where you too learn not to give a damn. But as the months turn into years, there is one name that crops up again and again: Texan Kirby. And that name does strange things to Vaselinetjie's heart.

Erik en die kido-dinges AFRICAN SUN MeDIA

This book focuses on food security and safety issues in Africa, a continent presently challenged with malnutrition and food insecurity. The continuous increase in the human population of Africa will lead to higher food demands, and climate change has already affected food production in most parts of Africa, resulting in drought, reduced crop yields, and loss of livestock and income. For Africa to be food-secure, safe and nutritious food has to be available, well-distributed, and sufficient to meet people's food requirements. Contributors to Food Security and Safety: African Perspectives offer solutions to the lack of adequate safe and nutritious food in sub-Saharan Africa, as well as highlight the positive efforts being made to address this lack through a holistic approach. The book discusses the various methods used to enhance food security, such as food fortification, fermentation, genetic modification, and plant breeding for improved yield and resistance to diseases. Authors emphasize the importance of hygiene and food safety in food preparation and preservation, and address how the constraints of climate change could be overcome using smart crops. As a comprehensive reference text, Food Security and Safety: African Perspectives seeks to address challenges specific to the African continent while enhancing the global knowledge base around food security, food safety, and food production in an era of rapid climate change.

We're Not All Like that Harcourt Brace Jovanovich

A strikingly written debut collection of vivid short stories set in and around Gansbaai, a small coastal town in South Africa's Western Cape.
