This new 10th edition of John Figliozzi's popular Worldwide Listening Guide explains radio listening in all of today's formats - "live," on-demand, WiFi, podcast, terrestrial, satellite, internet, digital and, of course, analog AM, FM and SW. The introductory section explains all the newest delivery methods for radio, and the devices used to access broadcasts from around the world at any time of day or night. Listening to programs from distant lands is no longer a late-night activity dependant upon shortwave propagation conditions. There is a whole other world of radio out there for your listening enjoyment. Thousands of radio stations worldwide use the Internet to stream their broadcasts. Traditional radio is being augmented by computers, laptops, tablets, smartphones, satellites, WiFi receivers and multiplexed digital transmission methods, greatly enhancing the listening experience. Use The Worldwide Listening Guide to join in the excitement of listening to worldwide radio, listening to news, information, music and entertainment from around the world broadcast in English. The Guide is organized to make it easy and convenient to find radio programs of interest to you. All program listings are provided two ways: First, programs are listed by UTC time, station, days of broadcast, the type of program, and their frequencies and web addresses. Second, special Classified Listings are provided to help listeners find programs of specific interest. The 37 classified program listings make it easy to find programs by topic or subject area.
