Biometric State World Bank Publications

The emergence of the African middle class as a driver of Africa's economic growth stands out as an important milestone in Africa's contemporary economic history. This growth, though uneven, is a source of hope for Africa, but also a signal to the rest of the world on the prospects for economic recovery and renewal, particularly because it has been steady despite the global downturn. The Emerging Middle Class in Africa analyses specific aspects of the lives of the middle class in Africa. It looks at how people become and remain in the middle class through a series of thematic chapters. It examines how behaviour changes in the process, in terms of consumption patterns and spending on health and education. A further dimension of this analysis is how class impacts on gender relations and whether women are able to reap

the same benefits of social advancement available to men. Africa is a continent of such scale and diversity that experiences across countries vary widely. The book thus captures the common patterns across the continent. This text is primarily aimed at Africanist researchers, policy makers, development practitioners, and bilateral and multilateral institutions, as well as students of African studies, political science, political economy, development studies, and development economics.

General Catalogue of Printed Books Routledge

Includes Geographical index (earlier called Geographical section).

Standard & Poor's Register of Corporations, Directors and Executives Routledge

The time frame extends from the early nineteenth century to the early years of the twenty-first century. The novel deals with the themes of love and hate. The early protagonists are Jonathan and Shanti, Bridgerajh and a young British girl, and Meghi, a girl forced into prostitution. In a new land, they strive to lead a meaningful life. The enemies are descendants of thuggees and a

medley of Satanists. The vendetta haunts each generation. In the second generation, we meet Ramanand and his brothers struggling to define a new life of personal choice. They struggle against injustice and oppression, which affects their love for family. Their lives are uprooted by the rapacity of the apartheid regime's legally creating a tragic Indian Diaspora within South Africa. The descendants of the thuggees have embraced organised crime. In the third generation are couples like Andries and Joyce; Vishaal and Sabita; Jayesh, who is tangled with Janice, Sharita, and Zuleka; and Pravesh and his beloved Durgha, who become political refugees and fight the enemy to a tragic finish. Intertwined are the lives of Sipiwe an African freedom fighter and his white sweetheart Victoria. There's Spanner and his Indian girlfriend Sunita. The enemy is led by a godfather whose young pupil is Akhsay. A host of people have their lives interwoven with all these persons. The climax is a private war transcending national boundaries. There is a group of knights on a journey of disappointment and discovery. Finally, there is the fourth generation that wants answers and frees itself. The protagonist is Aditi, a young woman of the twenty-first century. The letters to Aditi are an attempt to answer her questions.

Who's who Springer

An inner life of Johannesburg that turns on the author's fascination with maps, boundaries, and transgressions *Lost and Found in Johannesburg* begins with a transgression—the armed invasion of a private home in the South African city of Mark Gevisser's birth. But far more than the riveting account of a break-in, this is a daring exploration of place and the boundaries upon which identities are mapped. As a child growing up in

apartheid South Africa, Gevisser becomes obsessed with a street guide called Holmden's Register of Johannesburg, which literally erases entire black townships. Johannesburg, he realizes, is full of divisions between black and white, rich and poor, gay and straight; a place that "draws its energy precisely from its atomization and its edge, its stacking of boundaries against one another." Here, Gevisser embarks on a quest to understand the inner life of his city. Gevisser uses maps, family photographs, shards of memory, newspaper clippings, and courtroom testimony to chart his intimate history of Johannesburg. He begins by tracing his family's journey from the Orthodox world of a Lithuanian shtetl to the white suburban neighborhoods where separate servants' quarters were legally required at every house. Gevisser, who eventually marries a black man, tells stories of others who have learned to define themselves "within, and across, and against," the city's boundaries. He recalls the double lives of gay men like Phil and Edgar, the ever-present housekeepers and gardeners, and the private swimming pools where blacks and whites could be discreetly intimate, even though the laws of apartheid strictly prohibited sex between people of different races. And he explores physical barriers like The Wilds, a large park that divides Johannesburg's affluent Northern Suburbs from two of its poorest neighborhoods. It is this park that the three men who held Gevisser at gunpoint crossed the night of their crime. An ode to both the marked and unmarked landscape of Gevisser's past, *Lost and Found in Johannesburg* is an existential guide to one of the most complex cities on earth. As Gevisser writes, "Maps would have no purchase on us, no currency at all, if we were not in danger of

running aground, of getting lost, of dislocation and even death without them. All maps awaken in me a desire to be lost and to be found . . . [They force] me to remember something I must never allow myself to forget: Johannesburg, my hometown, is not the city I think I know."

Biographical Register of Christ's College, 1505-1905 Springer Nature

Now in its 150th edition, The Statesman's Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world. Covering political, economic, social and cultural aspects, the Yearbook is also available online for subscribing institutions:

Knowledge, Expertise and the Professions Cambridge University Press

In postapartheid Johannesburg, tensions of race and class manifest themselves starkly in struggles over 'rights to the city'. Martin J. Murray brings together urban theory and local knowledge to draw a picture of this city, where real estate agents and the very poor fight for control of space.

Taming the Disorderly City OUP/British Academy

This is the first book to combine a discussion of post-apartheid development initiatives with an extended historical analysis of South Africa's dynamic race, class, gender and ethnic identities. Bringing together the research of an historical geographer and two development geographers, the book enables us to locate the post-apartheid transition in a broad historical and spatial perspective. Within this perspective, the limitations as well as the achievements of South Africa's current transformation are

highlighted.

The Statesman's Yearbook 2014 Xlibris Corporation

This book is about 107 pages of experiences that came in useful later in life, including travel experiences, schooling experiences, and work experiences, hopefully to encourage young and not-so-young learners to appreciate the value of learning and that life is an unending learning experience.

I Hate You-- Don't Leave Me UNESCO Publishing

It has long been recognised that specialised knowledge is at the core of what distinguishes professions from other occupations. The privileged status of professions in most countries, however, together with their claims to autonomy and access to specialised knowledge, is being increasingly challenged both by market pressures and by new instruments of accountability and regulation. Established and emerging professions are increasingly seen as either the solution, or as sources of conservatism and resistance to change in western economies, and recent developments in professional education draw on a competence model which emphasises what newly qualified members of a profession 'can do' rather than what 'they know'. This book applies the disciplines of the sociology of knowledge and epistemology to the question of professional knowledge. What is this knowledge? It goes beyond traditional debates between 'knowing how' and 'knowing that', and 'theory' and 'practice'. The chapters cover a wide range of issues, from discussions of the threats to the knowledge base of established professions including engineers and architects, to the fraught situations faced by occupations whose fragile knowledge base and professional status is increasingly challenged by new forms of control. While

recognising that graduates seeking employment as members of a profession need to show their capabilities, the book argues for reversing the trend that blurs or collapses the skill/knowledge distinction. If professions are to have a future then specialised knowledge is going to be more important than ever before.

Knowledge, Expertise and the Professions will be key reading for students, researchers and academics in the fields of professional expertise, further education, higher education, the sociology of education, and the sociology of the professions.

Prison Narratives from Boethius to Zana NYU Press

Revised and updated, the classic guide to understanding borderline personality disorder includes the latest research on the neurobiological, genetic and developmental roots of the disorder as well as connections with substance abuse, PTSD, ADHD and eating disorders. Original.

Disease Control Priorities, Third Edition (Volume 6) Indiana University Press

The Kenya Gazette is an official publication of the government of the Republic of Kenya. It contains notices of new legislation, notices required to be published by law or policy as well as other announcements that are published for general public information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

Falling Monuments, Reluctant Ruins UNESCO

Originally published in 1913, this book forms the second part of a two-volume biographical register of Christ's College, Cambridge, covering the period 1666 to 1905. The text was begun and left almost complete by John Peile (1838-1910), an English philologist who was Master of Christ's from 1887 until his death. This book

will be of value to anyone with an interest in Christ's College and its history.

Poor's Register of Directors and Executives, United States and Canada AuthorHouse

A young boy is possessed by a malevolent spirit that seeks to consume his body. Now Thando is forced to push his demons aside and fight to save his friends and family whilst dealing with a mysterious threat to our planet.

The Sphere AuthorHouse

Infectious diseases are the leading cause of death globally, particularly among children and young adults. The spread of new pathogens and the threat of antimicrobial resistance pose particular challenges in combating these diseases. Major Infectious Diseases identifies feasible, cost-effective packages of interventions and strategies across delivery platforms to prevent and treat HIV/AIDS, other sexually transmitted infections, tuberculosis, malaria, adult febrile illness, viral hepatitis, and neglected tropical diseases. The volume emphasizes the need to effectively address emerging antimicrobial resistance, strengthen health systems, and increase access to care. The attainable goals are to reduce incidence, develop innovative approaches, and optimize existing tools in resource-constrained settings.

The Building News and Engineering Journal Routledge

Identity recognition of individuals by the groups they are born into or wish to affiliate themselves with has been a universal human experience but any registration documentation has received little scholarly attention. This introduction to a new subject presents a wide-ranging set of original studies of registration over 2000 years.

Blaze Graphic Communications Group

Geldenhuis Genealogy, Descendants of Albert Barends

Gildenhuizen Cornell University Press

This edited collection looks at ruins and vacant buildings as part of South Africa's oppressive history of colonialism and apartheid and ways in which the past persists into the present

The Seamen's Journal Springer

Covering the period from the interwar years through the arrival of the steamship SS Empire Windrush from Jamaica in 1948 and culminating in the period of decolonization in the British Caribbean by the early 1970s, this project situates the development of networks of communication, categories of identification, and Caribbean radical politics both in the metropole and abroad. *Blackening Britain* explores how articulations of Caribbean identity formation corresponded to the following themes: organic collective action, political mobilization, cultural expressions of shared consciousness, and novel patterns of communication. *Blackening Britain* shows how colonial migrants developed tools of resistance in the imperial center predicated on their racialized consciousness that emerged from their experiences of alienation and discrimination in Britain. This book also interrogates the ways in which prominent West Indian activists, intellectuals, political actors, and artists conceived of their relationship to Britain. Ultimately, this work shows a move away from British identity and a radical, revolutionary

consciousness rooted in the West Indian background and forged in the contentious space of metropolitan Britain.

Prison Narratives from Boethius to Zana critically examines selected works of writers, from the sixth century to the twenty-first century, who were imprisoned for their beliefs. Chapters explore figures' lives, provide close analyses of their works, and offer contextualization of their prison writings.

The Athenaeum Cambridge University Press

Biometric identification and registration systems are being proposed by governments and businesses across the world. Surprisingly they are under most rapid, and systematic, development in countries in Africa and Asia. In this groundbreaking book, Keith Breckenridge traces how the origins of the systems being developed in places like India, Mexico, Nigeria and Ghana can be found in a century-long history of biometric government in South Africa, with the South African experience of centralized fingerprint identification unparalleled in its chronological depth and demographic scope. He shows how empire, and particularly the triangular relationship between India, the Witwatersrand and Britain, established the special South African obsession with biometric government, and shaped the international politics that developed around it for the length of the twentieth century. He also examines the political effects of biometric registration systems, revealing their consequences for the basic workings of the institutions of democracy and authoritarianism.
