SCHWARTZ BRODY

Ernest W. McFarland AuthorHouse

This edited volume uses newly released archival material to show linkages between the development of the European Union and the Cold War. Containing essays by well-known Cold War scholars such as Jussi Hanhimaki, Wilfried Loth and Piers Ludlow, the book looks at: France, where neither de Gaulle nor Pompidou felt committed to the status quo in East-West or West-West relations Germany, where Brandt's Ostpolitik was acknowledged to be linked to the success of Bonn's Westpolitik and Britain, where the move towards Community membership was tightly bound up with a variety of calculations about the organization of the West and its approach to the Cold War. Nixon and Kissinger's policies are set out as the background of US policy against which each of the European players was compelled to operate, explaining how Washington saw European integration as part of the over-arching Cold War. European Integration and the Cold War will appeal to students of Cold War history, European politics, and international history.

De Gaulle PUQ

Summary: Contents: Part 1; Seperate worlds, different visions. Chapter One: From the Atlantic to the Urals: De Gaulle's 'European' Europe and the United States as the ally of ultimate recourse. Chapter Two: The Atlantic 'Community' in American foreign policy: An ambiguous approach to the Cold War alliance. Part II - Dealing with De Gaulle. Chapter Three: Organizing the West: Eisenhower, Kennedy, and de Gaulle's 'Tripartite' memorandum proposal, 1958-1962. Chapter Four: Of Arms and Men: Kennedy, De Gaulle, and military-strategic reform, 1961-1962. Chapter Five: Whose kind of 'Europe'? Kennedy's tug of war with de Gaulle about the Common Market, 1961-1962. Chapter Six: The Clash: Kennedy and de Gaulle's Rejection of the Atlantic Partnership, 1962-1963. Chapter Seven: The demise of the last Atlantic project: LBJ and De Gaulle's attack on the multilateral force, 1963-1965. Chapter Eight: De Gaulle throws down the gauntlet: LBJ and the crisis in NATO, 1965-1967. Chapter Nine: Grand Designs Go Bankrupt. Conclusions.

French Caesarism from Napoleon I to Charles de Gaulle Simon and Schuster

This book provides a comprehensive analysis of the foundations of the European integration process through the lenses of the three major European powers: France, Germany, and Britain. It shows the predicaments, but also the potential the European integration process has for the future against the

background of its foundation history.

The Color of Truth Kogan Page Publishers

In this definitive history, William R. Keylor traces the tumultuous relationship between Charles de Gaulle and a host of other key twentieth-century figures: his former mentor Marshal Philippe Pétain, who headed the collaborationist government in the southern French city of Vichy as the German army occupied the northern two-thirds of the country; Sir Winston Churchill, the British prime minister whose government supported and financed de Gaulle and the Free French, but who clashed with the French leader on a number of hot-button issues; and, most critically, the six American presidents from FDR to Nixon. Keylor uses the metaphor "thorn in the side" to emphasize the fact that challenges from the intrepid French leader were often an annoyance to the Americans, who all had many more important issues to deal with—World War II for Roosevelt and Truman, the Cold War for Eisenhower, and the Vietnam War for Kennedy and Johnson. Richard Nixon alone had an excellent relationship, but the two men overlapped for only four months before de Gaulle's retirement. Thoroughly researched and deeply knowledgeable, this gripping book will appeal to all readers interested in contemporary French and US history.

One Brief Shining Moment Palgrave Macmillan

Crosscurrents: How Film Policy Developed in Quebec 1960-1983 documents the fight by filmmakers in Quebec for a film policy that would support their ambition to create commercial feature films. In the process, it explores the history of Quebec cinema, charting how the government supports that exist today came into existence through an intense lobbying effort on the part of filmmakers.

The Riches of Paris Encyclopaedia Britannica, Inc.

The Little Black Book of Paris Taylor & Francis

In December, 1941 US Army pilots began hauling passengers and cargo around the Philippines after the Japanese attack on Clark Field, thus beginning one of the most important air force missions of World War II. As America geared up to fight the war, dozens of what came to be known as troop carrier squadrons were activated and equipped, usually with Douglas C-47 and C-53 version of the DC-8 transport. Beginning in New Guinea, US Army troop carrier crews became a crucial part of the effort to turn the tide of war. In Europe troop carrier squadrons supported Army airborne forces and

provided logistical support for air force squadrons. During the Battle of the Bulge troop carrier crews kept the 101st Airborne Division supplied. After the war, troop carrier squadrons supplied the besieged city of Berlin. Troop carrier crews supported UN forces in Korea, then supported French efforts in Indochina where their successors would become crucial to US efforts in the 1960s and early 1970s. This is their story.

From Dynasties to Dotcoms Springer

"Grey is the color of truth." So observed Mac Bundy in defending America's intervention in Vietnam. Kai Bird brilliantly captures this ambiguity in his revelatory look at Bundy and his brother William, two of the most influential policymakers of the Kennedy and Johnson administrations. It is a portrait of fiercely patriotic, brilliant and brazenly self-confident men who directed a steady escalation of a war they did not believe could be won. Bird draws on seven years of research, nearly one hundred interviews, and scores of still-classified top secret documents in a masterful reevaluation of America's actions throughout the Cold War and Vietnam.

Charles de Gaulle Macmillan

The fiercer the competition to get into college the more schools require that students prove themselves in other ways than SAT scores and grade point averages. The more expensive college educations become, the more students take advantage of the opportunity to test-out of first year college courses. Includes; -2 sample tests with full explanations for all answers -The Princeton Review's proven score-raising skills and techniques -Complete subject review of all the material likely to show up on the AP Spanish exam

Crosscurrents St. Martin's Press

Trash Haulers Rosetta Books

Thomas Hörber analyses the building process of European integration. He shows the parliamentary discourses of France, Germany and Britain to be representative of the national position of these states towards the developing concept of 'Europe'. He covers all key events and developments of the time which had an impact on the European integration process and provides an explanation for the convergence of national discourses towards a common Europe. This development was by no means a given and the analysis of parliamentary debates shows for the first time how vigorous the debates were on European integration in the 1950s, and how, despite setbacks (notably the failure of the European Defence Community), the discussion went in favour of integration.

Atlantis Lost Brandylane Publishers Inc

Unlike so many other books, *Grace and Power* rejects gossip and conspiracy theory to tell the story of John and Jackie's three years in the White House soberly, comprehensively and sensitively, from beginning to sudden end. Sally Bedell Smith's book on John and Jackie Kennedy was hailed by

authoritative reviewers on both sides of the Atlantic as the most distinguished and well-written book on a perennially fascinating subject for years. In the US the hardback was high on the New York Times bestseller list for weeks. It is an immensely poignant chronicle of pivotal historical events seen from the inside out, from within the private home of the President and First Lady. Amidst the superficial opulence of their social circle, we see the Cuban Missile Crisis and the burgeoning American civil rights movement from the perspective of an invalid president often barely well enough to appear in public. Together with his young wife, abandoned by her husband's relentless womanising, nevertheless changed the politics and style of America. *Grace and Power* is the classic account of that time.

A Converging Post-War European Discourse Amsterdam University Press

One of France's most famous historians compares two exemplars of political and military leadership to make the unfashionable case that individuals, for better and worse, matter in history. Historians have taught us that the past is not just a tale of heroes and wars. The anonymous millions matter and are active agents of change. But in democratizing history, we have lost track of the outsized role that individual will and charisma can play in shaping the world, especially in moments of extreme tumult. Patrice Gueniffey provides a compelling reminder in this powerful dual biography of two transformative leaders, Napoleon Bonaparte and Charles de Gaulle. Both became national figures at times of crisis and war. They were hailed as saviors and were eager to embrace the label. They were also animated by quests for personal and national greatness, by the desire to raise France above itself and lead it on a mission to enlighten the world. Both united an embattled nation, returned it to dignity, and left a permanent political legacy—in Napoleon's case, a form of administration and a body of civil law; in de Gaulle's case, new political institutions. Gueniffey compares Napoleon's and de Gaulle's journeys to power; their methods; their ideas and writings, notably about war; and their postmortem reputations. He also contrasts their weaknesses: Napoleon's limitless ambitions and appetite for war and de Gaulle's capacity for cruelty, manifested most clearly in Algeria. They were men of genuine talent and achievement, with flaws almost as pronounced as their strengths. As many nations, not least France, struggle to find their soul in a rapidly changing world, Gueniffey shows us what a difference an extraordinary leader can make.

The Last Great Frenchman Simon and Schuster

As a U.S. senator, Ernest McFarland sponsored more than forty congressional laws, including the landmark GI Bill in 1944. Twice he led the Central Arizona Project (CAP) to passage in the Senate on its way to ultimate success, and his dedication led to his selection as U.S. Senate majority leader. After losing to Barry Goldwater in 1952, McFarland returned to Arizona, led a Democratic resurgence, and became a two-term governor. He enjoyed notable achievements preparing the way for industrial expansion in the state and successfully arguing the CAP case before the U.S. Supreme Court. At age seventy he successfully ran for the Arizona Supreme Court, where he wrote the controversial decision that was overturned by the U.S. Supreme Court in *Miranda v. Arizona*. He rose to chief justice in 1968, thus achieving the unique political triple crown of serving in the highest position in the legislative, executive, and judicial branches of state government. Mac passed away in Phoenix in 1984 at age 89, having risen from a log cabin in Oklahoma to Capitol Hill and to the Arizona statehouse, working alongside such notables as Harry Truman and Lyndon Johnson in a

career marked by selfless concern for the common person and stewardship of his nation.

"The finest one-volume life of de Gaulle in English." —Richard Norton Smith, Wall Street Journal In a definitive biography of the mythic general who refused to accept Nazi domination of France, Julian Jackson captures this titanic figure as never before. Drawing on unpublished letters, memoirs, and resources of the recently opened de Gaulle archive, he shows how this volatile visionary put a broken France back at the center of world affairs.

Cracking the Advanced Placement Spanish, 2004-2005 BRILL

A biography which contends that, whilst there may be others who will be as great, and they may be French, it is in his single-minded devotion to his country and in his skill and strength in pursuing it that Charles De Gaulle can be regarded as the last great Frenchman.

Paris by the Numbers Routledge

Major Jake (Mac) McCord, a brilliant intelligence officer commissioned by the United States Army in 1941 to capture a serial killer who has been terrorizing the small archipelago. Mac soon discovers that the killer is in fact the notorious Nazi Spy Boris Meissner, who holds a deeprooted grudge against Mac.

[Nuclear Weapons and International Behavior](#) Rowman & Littlefield Publishers

A New York Times–bestselling historian looks back on the Camelot of the early 1960s, and “make[s] the Kennedy days look glamorous again” (Kirkus Reviews, starred review). In his renowned biographies *Portrait of a President* and *The Death of a President*, William Manchester intimately and meticulously detailed the life and death of President John F. Kennedy. One Brief Shining Moment is a celebration of that life, based on Manchester’s own recollections of his time with one of America’s most famous families. John Kennedy first met William Manchester in 1946, beginning a friendship that would follow him to Washington and eventually the White House. But, beyond the closed doors

of the Oval Office, Manchester enjoyed a close relationship with the Kennedys. Drawing on family gatherings in New England, trips along the campaign trail, and informal private talks with JFK himself, this is William Manchester’s personal account of the man behind the legend, someone he truly admired and was proud to call a friend. One Brief Shining Moment provides a firsthand look at the thought process behind JFK’s most important decisions as president, his drive to move the country in a new direction, and his closest relationships. This is a book about a man, about a life, and about a triumphant moment in American history.

[The Three Lives of Charles de Gaulle](#) Little Brown GBR

His best friend's daughter has been abducted in Mexico. This is no ordinary kidnap for ransom. But then, Lee McCloud is no ordinary man. Having suffered the horror of witnessing his sister kidnapped when he was fourteen, the abduction of his goddaughter Sophia in Mexico is an opportunity for Delta Force operator McCloud to deliver some badly needed justice. Things don't go as planned, and McCloud finds himself teamed with Tally, a computer hacker in a secret organisation that raids the bank accounts of wealthy terrorists, and Scotty, a British SAS soldier. Determined to save Sophia at all costs, McCloud finds himself on a collision course with an exiled Saudi, Sheik Khalid, whose ambitions feature a key role for Sophia. McCloud and Tally find themselves trapped in a conspiracy, hunted by enemies on both sides, and conflicted by their feelings for each other. But time is running out. With their haunted pasts catching up, McCloud and Tally need to stop a horrific plot involving Sophia that will have profound consequences for an already unstable world.
