 More than half a century after the fall of the Third Reich, Nazism, its roots and its essential nature, remain a central and unresolved enigma of the twentieth century. During the period of Hitler's ascendancy, most attempts at explaining this unprecedented phenomenon were framed in "economic," often Marxist, sociological terms and concepts. Peter Viereck's *Metapolitics*, initially published in

1941, broke with this convention by indicting Hitler in terms of the Judaic-Christian ethical tradition and locating certain elements of the Nazi worldview in German romantic poetry, music, and social thought. Newly expanded, *Metapolitics* remains a key work in the cultural interpretation of Nazism and totalitarianism and in the psychological interpretation of Hitler as a Wagnerite and failed artist. The term "metapolitics," a coinage from Richard Wagner's nationalist circle, signifies an ideology resulting from five distinct strands: romanticism (embodied chiefly in the Wagnerian ethos), the pseudo-science of race, Fuehrer worship, vague economic

socialism, and the alleged supernatural and unconscious force of the Volk collectivity. Together, those elements engendered an emphasis on irrationalism and hysteria and belief in a special German mission to direct the course of the world's history. Viereck analyzes nineteenth-century German thought's conflicting attitudes toward political procedures and social arrangements rooted in classical, rational, legalistic, and Christian traditions. This edition includes an appreciation by Thomas Mann and an exchange with Jacques Barzun debating Viereck's criticism of German romanticism. Viereck's essays on the case of Albert Speer,

on Claus von Stauffenberg (the German officer who led the army conspiracy to assassinate Hitler), and on the poets Stefan George and Georg Heym appear here for the first time in book form.

Examining the relationship between German poetry, philosophy, and visual media around 1900, Carsten Strathausen argues that the poetic works of Rainer Maria Rilke, Hugo von Hofmannsthal, and Stefan George focused on the visible gestalt of language as a means of competing aesthetically with the increasing popularity and "reality effect" of photography and film. Poetry around 1900 self-reflectively

celebrated its own words as both transparent signs and material objects, Strathausen says. In Aestheticism, this means that language harbors the potential to literally present the things it signifies. Rather than simply describing or picturing the physical experience of looking, as critics have commonly maintained, modernist poetry claims to enable a more profound kind of perception that grants intuitive insights into the very texture of the natural world.

Originally published in 1978, this study presents a detailed analysis of the major literary movements in Austria and Germany

from the end of the nineteenth century to the collapse of the Third Reich. It examines the plethora of literary genres which marked the transition from the nineteenth to the twentieth century: the short-lived Naturalist movement rapidly giving way to various forms of symbolism and neo-romanticism. The situation in Vienna is studied in detail; the concept of modernism vis-à-vis expressionism with special regard to Rilke and Kafka. The literature of the Weimar period is also analysed, with emphasis on the symphonic novels of the time and the anti-illusionist devices of Brecht. It also draws a comparison between the literary situation in Nazi Germany and the

literature of exile, and the positions of Thomas and Heinrich Mann, Brecht and Gottfried Benn are examined.

Können wir nicht das Leben führen, für das wir eigentlich gemacht wurden: authentisch, mutig und nach unseren ganz eigenen Vorstellungen? Wir könnten Beziehungen voller Liebe und Verbundenheit leben, einen Job machen, der sich nicht wie Arbeit anfühlt, und all unsere Lebendigkeit entfalten. Doch was tun wir stattdessen? Wir versuchen, es anderen Recht zu machen, bemühen uns zu gefallen und bis zum nächsten Urlaub durchzuhalten. Es ist Zeit, unsere eigene Wahrheit zu finden und das Steuer wieder

Anhand von Erfahrungen und ungeschminkter Geschichten aus ihrem eigenen Leben und mit einer großen Portion Optimismus zeigt die Bestsellerautorin und »Ichgold«-Podcasterin Dana Schwandt, wie wir verborgenen Denk- und Verhaltensmustern auf die Schliche kommen, unsere Einzigartigkeit entdecken und über unsere inneren Grenzen hinauswachsen.

The main theme of this volume of selected essays on poetry and on history, written

between 1938 through 2004, is suggested in Vierecks coined phrase 'strict wildness,' which suggests a balance between restraint (which by itself is staid and rigid) and passion (which by itself is incoherent). The book explores questions of modernism and poetic craft with respect to American poetry. It discusses the controversy over Ezra Pounds politics and its relation to his poetics, and the nearly forgotten poet Vachel Lindsay. Viereck offers more general views on poetics, including the fruitful tensions between form and content, and the impact of modern technology on poetic expression. This book also discusses history and politics, and contains essays on

McCarthyism, the Cold War, political conformity of the Left and Right, and issues of historiography and culture that define Vierecks individual, often critical brand of conservatism.
