Spine-tingling and entertaining, *The Invisible Man* is a science fiction classic—and a penetrating, unflinching look into the heart of human nature. To its author, H. G. Wells, the novel was as compelling as “a good gripping dream.” But to generations of readers, the terrible and evil experiment of the demented scientist, Griffin, has conveyed a chilling nightmare of believable horror. An atmosphere of ever-increasing suspense begins with the arrival of a mysterious stranger at an English village inn and builds relentlessly to the stark terror of a victim pursued by a maniacal invisible man. The result is a masterpiece: a dazzling display of the brilliant imagination, psychological insight, and literary craftsmanship that made H. G. Wells one of the most influential writers of his time.

The Invisible Man is a science fiction novella. The *Invisible Man* of the title is Griffin, a scientist who has devoted himself to research into optics and invents a way to change a body's refractive index to that of air so that it absorbs and reflects no light and thus becomes invisible. He successfully carries out this procedure on himself, but fails in his attempt to reverse the procedure. Herbert George Wells (1866 - 1946), known as H. G. Wells, was a prolific English writer in many genres, including the novel, history, politics, and social commentary, and textbooks and rules for war games.

For African American men without a high school diploma, being in prison or jail is more common than being employed—a sobering

reality that calls into question post-Civil Rights era social gains. Nearly 70 percent of young black men will be imprisoned at some point in their lives, and poor black men with low levels of education make up a disproportionate share of incarcerated Americans. In *Invisible Men*, sociologist Becky Pettit demonstrates another vexing fact of mass incarceration: most national surveys do not account for prison inmates, a fact that results in a misrepresentation of U.S. political, economic, and social conditions in general and black progress in particular. *Invisible Men* provides an eye-opening examination of how mass incarceration has concealed decades of racial inequality. Pettit marshals a wealth of evidence correlating the explosion in prison growth with the disappearance of millions of black men into the American penal system. She shows that, because prison inmates are not included in most survey data, statistics that seemed to indicate a narrowing black-white racial gap—on educational attainment, work force participation, and earnings—instead fail to capture persistent racial, economic, and social disadvantage among African Americans. Federal statistical agencies, including the U.S. Census Bureau, collect surprisingly little information about the incarcerated, and inmates are not included in household samples in national surveys. As a result, these men are invisible to most mainstream social institutions, lawmakers, and nearly all social science research that isn't directly related to crime or criminal justice. Since merely being counted poses such a challenge, inmates' lives—including their family background, the communities they come from, or what happens to them after incarceration—are even more rarely examined. And since correctional budgets provide primarily for housing and monitoring inmates, with little left over for job training or rehabilitation, a large population of young men are not only invisible to society while in prison but also ill-equipped to participate upon release.

Invisible Men provides a vital reality check for social researchers, lawmakers, and anyone who cares about racial equality. The book shows that more than a half century after the first civil rights legislation, the dismal fact of mass incarceration inflicts widespread and enduring damage by undermining the fair allocation of public resources and political representation, by depriving the children of inmates of their parents' economic and emotional participation, and, ultimately, by concealing African American disadvantage from public view.

Then there is Matt Baker, the most revered of the Black artists, whose exquisite art spotlights stunning women and men, and who drew the first groundbreaking Black comic book hero, Vooda! Gorgeously illustrated with rare examples of each artist's work, including full stories from mainstream comic books to rare titles like *All-Negro Comics* and *Negro Heroes*, plus unpublished artist's photos and art. *Invisible Men: The Trailblazing Black Artists of Comic Books* features Ken Quattro's over 20 years of impeccable research and writing. By the mid-1940s. Gordon Parks had cemented his reputation as a successful photojournalist and magazine photographer, and Ralph Ellison was an established author working on his first novel, *Invisible Man* (1952), which would go on to become one of the most acclaimed books of the twentieth century. Less well known, however, is that their vision of racial injustices, coupled with a shared belief in the communicative power of photography, inspired collaboration on two important projects, in 1948 and 1952. Capitalizing on the growing popularity of the picture press, Parks and Ellison first joined forces on an essay titled "Harlem Is Nowhere" for '48: The Magazine of the Year. Conceived while Ellison was already three years into writing *Invisible Man*, this illustrated essay was centered on the Lafargue Clinic, the first nonsegregated psychiatric clinic in New York City, as a case study for the social and economic conditions in Harlem. He chose Parks to create the accompanying photographs, and during the winter months of 1948, the two roamed the streets of Harlem together, with Parks photographing under the guidance of Ellison's writing. In 1952 they worked together again, on "A Man Becomes Invisible", for the August 25 issue of *Life* magazine, which promoted Ellison's newly released novel. *Invisible Man*: Gordon Parks and Ralph Ellison in Harlem focuses on these two projects, neither of which was published as originally intended, and provides an in-depth look at the authors' shared vision of black life in America, with Harlem as its nerve center.

Essay from the year 2003 in the subject American Studies - Literature, grade: 1.0, University of Kent (School of English), course: American Modernisms, 16 entries in the bibliography, language: English, abstract: In an attempt to place Ralph Waldo Ellison's novel *Invisible Man* within a Modernist framework, Berndt Ostendorf writes, 'Ellison ... is a "Spätling," a latecomer to Modernism. ... Ellison's Modernism ... is not one of crisis and despair, but of innovation and hope. He accepts the discipline implied in [Ezra Pound's] slogan "make it new," but rejects the cultural pessimism of his ancestors.'¹ Although Ostendorf's description is right insofar that Ellison's work is optimistic in its outcome rather than as pessimistic as the majority of modernist novels, it does not seem to be in agreement with the term

Modernism in general. Isn't modernist literature usually called a 'literature of ... crisis'?² Isn't Modernism said to feature 'elements of cultural apocalypse' rather than the hope Ostendorf mentions?³ And: Doesn't Ostendorf's statement resemble a definition of Postmodernism rather than Modernism? In fact, Ellison's novel is hard to categorize. Critics agree that *Invisible Man* includes characteristics of different literary periods. Malcolm Bradbury, for instance, says the novel mixes 'naturalism, expressionism, and surrealism' and thereby places it somewhere between Modernism and Postmodernism.⁴ As these two terms are problematic as far as their definitions are concerned, this essay will begin by naming some of the key characteristics of both periods. Later on, the essay will point out a number of typically postmodern features that Ellison integrates into *Invisible Man* and give examples from the novel itself. Eventually, the essay will discuss whether *Invisible Man* should be considered a modernist or postmodernist novel. 1 Berndt Ostendorf, 'Anthropology, Modernism, and Jazz', in Harold Bloom, Ralph Ellison, Chelsea House Publishers, 1986, pp. 161 - 164 2 Peter Childs, *Modernism*, Routledge, 2000, p.14 3 Malcolm Bradbury in *A Dictionary of Modern Critical Terms*, ed. The Invisible Man is a science fiction novel by H. G. Wells. Originally serialized in *Pearson's Weekly* in 1897, it was published as a novel the same year. The *Invisible Man* of the title is Griffin, a scientist who has devoted himself to research into optics and invents a way to change a body's refractive index to that of air so that it neither absorbs nor reflects light and thus becomes invisible. He successfully carries out this procedure on himself, but fails in his attempt to reverse it. An enthusiast of random and irresponsible violence, Griffin has become an iconic character in horror fiction. While its predecessors, *The Time Machine* and *The Island of Doctor Moreau*, were written using first-person narrators, Wells adopts a third-person objective point of view in *The Invisible Man*. A mysterious man, Griffin, arrives at the local inn owned by Mr. and Mrs. Hall of the English village of Iping, West Sussex, during a snowstorm. The stranger wears a long-sleeved, thick coat and gloves; his face is hidden entirely by bandages except for a fake pink nose; and he wears a wide-brimmed hat. He is excessively reclusive, irascible, unfriendly and an introvert. He demands to be left alone and spends most of his time in his rooms working with a set of chemicals and laboratory apparatus, only venturing out at night. While Griffin is staying at the inn, hundreds of strange glass bottles (that he calls his luggage) arrive. Many local townspeople believe this to be very strange. He becomes the talk of the village with many theorizing as to his origins. Meanwhile, a mysterious burglary occurs in the village. Griffin is running out of money and is trying to find a way to pay for his board and lodging. When his landlady demands that he pay his bill and quit the premises, he reveals part of his invisibility to her in a fit of pique. An attempt to apprehend the stranger is frustrated when he undresses to take advantage of his invisibility,

Griffin fights off his would-be captors, and flees to the downs. In the process he arms himself with a iron pipe; when a man follows the "floating pipe" and accidentally forces the Invisible man into thorn bushes, the invisible man commits his first murder. There Griffin coerces a tramp, Thomas Marvel, into becoming his assistant. With Marvel, he returns to the village to recover three notebooks that contain records of his experiments. When Marvel attempts to betray the Invisible Man to the police, Griffin chases him to the seaside town of Port Burdock, threatening to kill him. Marvel escapes to a local inn and is saved by the people at the inn, but Griffin escapes. Marvel later goes to the police and tells them of this "invisible man," then requests to be locked up in a high-security jail. Griffin's furious attempt to avenge his betrayal leads to him being shot. He takes shelter in a nearby house that turns out to belong to Dr. Kemp, a former acquaintance from medical school. To Kemp, he reveals his true identity. Griffin is a former medical student who left medicine to devote himself to optics. He recounts how he invented chemicals capable of rendering bodies invisible, and, on impulse, performed the procedure on himself. Griffin tells Kemp the story of how he became invisible. He explains how he tried the invisibility on a cat, then himself.

Griffin burned down the boarding house he was staying in, along with all the equipment he had used to turn invisible, to cover his tracks; but he soon realised that he was ill-equipped to survive in the open. He attempted to steal food and clothes from a large department store, and eventually stole some clothing from a theatrical supply shop and headed to Iping to attempt to reverse the invisibility. Having been driven somewhat unhinged by the procedure and his experiences, he now imagines that he can make Kemp his secret confederate, describing a plan to begin a "Reign of Terror" by using his invisibility to terrorise the nation.
