"The confrontation with evil manifests as a battle taking place on many levels, the outcome of which lies in the hands of each one of us alive today. The most important requisite is the creating of a space within us in which a new consciousness, the Imagination, will gradually be able to arise. Much in the future depends on whether a sufficient number of people succeed in reaching this level of experience" (Maria Betti). With the world in turmoil, the greatest challenge facing us today, says Mario Betti, is the inner transformation of our whole being. Rebirth from within heralds a new form of consciousness--a creative imaginative faculty--that is also a reawakening of the mysterious Sophia, the Divine Feminine. Imagination allows us to behold the spiritual forces actively at work in the world, leading to the possibility of a comprehensive rebirth and renewal of culture. This book was written to make the material presented in my book, *Stahlbetonbrücken*, accessible to a larger number of engineers throughout the world. A work in English, the logical choice for this task, had been contemplated as *Stahlbetonbrücken* was still in its earliest stages of preparation. The early success of *Stahlbetonbrücken* provided significant impetus for the writing of *Prestressed Concrete Bridges*, which began soon after the publication of its predecessor. The present work is more than a mere translation of *Stahlbetonbrücken*. Errors in *Stahlbetonbrücken* that were detected after publication have

been corrected. New material on the relation between cracking in concrete and corrosion of reinforcement, prestressing with unbonded tendons, skew-girder bridges, and cable-stayed bridges has been added. Most importantly, however, the presentation of the material has been extensively reworked to improve clarity and consistency. *Prestressed Concrete Bridges* can thus be regarded as a thoroughly new and improved edition of its predecessor.

The need for large-scale bridges is constantly growing due to the enormous infrastructure development around the world. Since the 1970s many of them have been cable-stayed bridges. In 1975 the largest span length was 404 m, in 1995 it increased to 856 m, and today it is 1104 m. Thus the economically efficient range of cable-stayed bridges is tending to move towards even larger spans, and cable-stayed bridges are increasingly the focus of interest worldwide. This book describes the fundamentals of design analysis, fabrication and construction, in which the author refers to 250 built examples to illustrate all aspects. International or national codes and technical regulations are referred to only as examples, such as bridges that were designed to German DIN, Eurocode, AASHTO, British Standards. The chapters on cables and erection are a major focus of this work as they represent the most important difference from other types of bridges. The examples were chosen from the bridges in which the author was personally involved, or where the consulting engineers, Leonhardt, Andr  and Partners (LAP), participated significantly. Other bridges are

included for their special structural characteristics or their record span lengths. The most important design engineers are also presented. Note: The lecture videos which are attached to the print book on DVD are not part of the e-book.

"In his chateau and elsewhere, la Sceve undertakes a series of complex and often comic experiments: he records his own dreams and speculates on their relation to waking life; he studies sleeping cats, rabbits, and other animals (and observes rapid eye movement almost two centuries before modern science discovers it); he records the sleep and dream experiences of a Swiss soldier and a pair of Siamese twins. And, because sleep and dreams are often in close proximity to the erotic, he considers the relation of dreaming and sexual activity, heroically undertaking firsthand research with various women (with the notable exception of his wife).".

Pin Up History 2023 European Studies in Theology, Philosophy and History of Religions

The book analyses the medieval vision of the world as depicted in Dante Alighieri's poetic works. In detail it discusses two works, The Banquet and The Divine Comedy, and offers a view on politics, faith and the universe of the medieval period. For modern people that period with its debates, polemics and visions represents something exceedingly remote, obscure and unknown. While admiring Dante's poetic artistry, we often fail to recognize the inspirations that permeated the works of medieval scholars and poets. Although times are constantly changing, every generation has to face the same fundamental questions of meaning, purpose and value of human existence: Dante's cosmological and poetical picture turns out to be surprisingly universal.

The Holy Spirit, Inspiration, and the Cultures of Antiquity Dk Pub
In 1965, Carol Schaefer was 19, a freshman in college and deeply in love. She was also pregnant. When her boyfriend's family opposed their marrying, her parents sequestered her in a Catholic home for unwed mothers a state away, where she was isolated and where secrecy prevailed. She had only to give up her baby for her sin to be forgiven and then all would soon be forgotten she was told. The child, in turn, would be placed with a "good" family, instead of having his life ruined by the stigma of illegitimacy. Carol tried to find the strength to oppose this dogma but her shame had become too deep. "The first time I looked deep into my son's eyes, I felt like a criminal. As I unwrapped his hospital

blanket and took in the heady fragrance of a newborn, I feared the nurses or the sisters would come in and slap me for contaminating my own son." Finding no way out, she signed the fateful papers leaving her son in the hands of strangers, but with a vow to her baby she would find him one day. For years, Carol struggled to forget and live the "normal" life promised, not understanding the consequences of the trauma she'd endured. On his eighteenth birthday, she set out to find him, although the law denied access to records. Her search became a spiritual quest to reclaim her own lost self, as she came to understand the emotional and psychological wounds she and other mothers like her had endured. Against all odds she succeeded in finding him and discovered that in many ways they had never really been apart. With her son's encouragement and his adoptive mother's cooperation, she tells their story.
