This comprehensive guidebook to EuroVelo route 15 offers a detailed stage-by-stage description of the 1368km route along the Rhine, one of Europe's great rivers, passing through six countries on its way from Switzerland to the North Sea. The cycling is easy, downhill and along dedicated cycle lanes, the countries visited are very cycle-friendly and the waymarking is excellent. The whole trip can be completed in two weeks by a fit cyclist. The guide includes plenty of information to help you plan your trip, with advice on travel, accommodation and facilities. The full route is presented in 27 stages of 32-68km, with step-by-step route description, 1:100,000 mapping and notes on local points of interest. A facilities table, glossary and list of useful contacts can be found in the appendices. Starting in the Swiss Alps with high mountains, deep glacial valleys and gorges, the route soon reaches Europe's third largest lake, the Bodensee, and its greatest mainland waterfall. After Basel, the Rhine becomes a broad river, now the world's busiest river trading artery. The middle Rhine, between Bingen and Koblenz, forces its way through the narrow rocky Rhine gorge, lined by romantic castles perched above Germany's finest vineyards. Finally, the river passes through low-lying Holland, famed for its many flood dykes and windmills.

The most northerly of Britain's island groups, Shetland is so far removed from the rest of the UK that it usually appears as an inset on maps. Although relatively little known to those from outside the islands, Shetland is a magnificent terrain for walkers, especially those who love to really explore and get away from the beaten track. The coastal walking here includes some of the finest in the country, with superb cliffs, towering sea stacks, caves and natural arches seemingly around every corner. Added to this is Shetland's better known claim to fame for its spectacular seabird colonies & huge gannetries, moorland packed with arctic and great skuas, arctic terns in the more sheltered spots, and everyone's favourite & the puffins. The islands also enjoy a dense population of otters, many seals, and a chance to see killer whales or other giants of the deep. Beyond all this natural grandeur, Shetland's history is fascinating too. The archaeological attractions are much less known than those on Orkney, but sites such as Jarlshof have amazingly preserved remains from prehistory right up to more recent times. These include iron age villages, chambered cairns, viking longhouses, pictish carvings, and impressive brochs & including the most complete of all these iron-age defensive towers, on Mousa. Rhodes, Karpathos, Kos, Southern Dodecanese

On a journey begun twenty years earlier, Daryl Farmer, a twenty-year-old two-time college dropout, did what lost men have so often done in this country: he headed west. Twenty years later and seventy pounds heavier, with the yellowing journals from that transformative five-thousand-mile bicycle trek in his pack, Farmer set out to retrace his path. This is his story of pursuing that distant

summer and that distant dream of home, where home is endless space, a roof of big sky, and a bed of dry earth. ø Just as the years altered the man, so, too, have they altered the West, and Farmer's second journey affords a unique perspective on these changes—as well as on what lasts. Whether caught in a Colorado snowstorm or braving a Yellowstone herd of bison, kayaking with orcas in Puget Sound, trading Ninja moves with a homeless man in San Francisco, or getting the lowdown on aliens on Nevada's Extraterrestrial Highway, Farmer charts a moving landscape of people and places. This is the West where the natural world and personal character are inextricably linked, and where one man's ride into the past and present takes us to the heart of that ever-evolving connection.
