This is a study guide with practice questions for the Cardiac Medicine Certification exam. The book contains 2 full practice exams with rationale.

[Certification and Core Review for Neonatal Intensive Care Nursing - E-Book](#) Mometrix Media Llc

Get ready for your neonatal intensive care nursing certification exam with the only review developed in collaboration with three leading nursing organizations! From AACN, AWHONN, and NANN, Certification and Core Review for Neonatal Intensive Care Nursing, 5th Edition prepares you for your examination with hundreds of high-quality study questions and realistic test simulation. Based on the latest test plans of the AACN's CCRN®-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the changes to the Core Curriculum and reflect the latest evidence, essential knowledge, and best practices. New to this edition are three new chapters and 225 completely new review questions. This powerful study tool offers unparalleled preparation for your certification exam! Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Realistic exam practice is offered through 675 total questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Online flexibility allows you to organize review questions and test format by your preferred examination, either the AACN or NCC. Online exam simulation — included free with each new copy of the book — mirrors the test-taking experience with an interactive, timed format. Customized study lets you choose whether to work through online questions in Study Mode or Examination Mode. Online remediation includes rationales for both correct and incorrect answers, and in-book remediation provides rationales for correct answers. A compact, portable size makes the book easier to study anytime, anywhere. 225 NEW review questions include 75 in the book and 150 additional online questions on the Evolve companion website. Thoroughly UPDATED review content reflects AACN's latest CCRN®-Neonatal exam and the NCC's latest Neonatal Intensive Care Nursing (RNC-NIC) exam, information in Core Curriculum for Neonatal Intensive Care Nursing, 5th Edition, and the newest evidence-based guidelines for neonatal critical care. NEW! Three new chapters include Grieving Process, Quality Improvement, and Facilitation of Learning. NEW focus on culturally sensitive care is included in an expanded Family Integration and Culturally Sensitive Care chapter. UPDATED rationales in the Answer Key are referenced to the most recent literature and evidence-based guidelines. Compatibility with iPads, iPhones, and other mobile devices allows online exam practice that is easy and convenient.

Why spend days or even weeks reading through meaningless junk, trying to sort out the helpful information from the fluff? We give you everything you need to know in a concise, comprehensive, and effective package.

Synergy for Clinical Excellence Mometrix Media LLC

The authoritative, evidence-based coverage you need to safely and competently care for adult, critically ill patients and their families – or prepare for the critical care nursing certification exam Endorsed by the American Association of Critical-Care Nurses and written by top clinical experts in acute care nursing, this textbook thoroughly covers all the need-to-know details on the care of adult, critically ill patients and their families. Supported by helpful tables and algorithms, the book's practical, building-block organization starts with the basics before proceeding to more complex concepts, paralleling the blueprint for the critical care nursing CCRN certification examination. AACN Essentials of Critical Care Nursing is divided into four logical sections, which, taken as a whole, will give you complete understanding of this challenging area of nursing practice: The Essentials – provides fundamental information that new clinicians must understand to provide safe, competent nursing care to all critically ill patients, regardless of their underlying medical diagnosis. Pathological Conditions – covers pathologic conditions and management strategies commonly encountered in all adult critical care units. Advanced Concepts in Caring for the Critically Ill Patient – presents advanced critical care concepts or pathologic conditions that are less common or more specialized than those generally found in adult critical care units. Key Reference Information – includes reference information that you will find helpful in a clinical environment, such as normal laboratory and diagnostic values, algorithms for advanced cardiac life support, and summary tables of critical care drugs and cardiac rhythms Each chapter begins with Knowledge Competencies that can be used to gauge your progress. This edition is compatible with ECCO (Essentials of Critical Care Orientation), the online program offered by the American Association of Critical-Care Nurses.

[CCRN Review Book](#) Xlibris Corporation

AACN Core Curriculum for Pediatric High Acuity, Progressive, and Critical Care, Third Edition, provides content required to deliver the best care for critically ill or injured children. As acuity increases in all inpatient departments and the practice of pediatric critical care expands beyond the acute phase of illness or injury, knowledge of pediatric critical care is more essential than ever. Pediatric acute and critical care nurses find themselves handling not only their patients, but care of their families and management of an interprofessional team of caregivers. With emphasis on evidence-based care and professionalism, this essential resource captures the professional role of the pediatric critical care nurse and the nurse's contributions to the process of continuous quality improvement. Ideal for pediatric critical care and acute care nurses, high acuity/critical care courses, and continuing education, AACN Core Curriculum for Pediatric High Acuity, Progressive, and Critical Care, Third Edition, contains core AACN guidelines for the highest quality nursing practice. The text covers anatomic, physiologic, cognitive, and psychosocial changes that occur throughout the pediatric lifespan. Chapters are systems focused and review developmental anatomy and physiology, clinical assessment, pharmacology, diagnostic tests, and therapeutic procedures. For each type of disease and injury, information is provided on pathophysiology, etiology, risk factors, signs and symptoms, nursing and collaborative interprofessional management, and complications. New to the Third Edition: Updated to include current patient management and the latest pediatric drug information Contains a completely new chapter on professional nursing issues, including quality, safety, communications, teamwork, work environment, and personal wellness Provides revised case studies and review questions/answers reflecting the latest version of the CCRN® Pediatric exam Key Features: Delivers comprehensive, current information for nursing students and those preparing for the CCRN® Pediatric exam Content is based on the most current standards of care, scope of practice, national guidelines, key AACN initiatives, and the AACN Certification Corporation Pediatric CCRN® Test Plan Presented in easy-to-read outline format for quick access to information Written and endorsed by AACN and AACN-affiliated subject matter experts Provides case studies to illustrate patient scenarios Discusses the application of AACN's Synergy Model for Patient Care in pediatric high acuity and critical care nursing practice Includes in-depth coverage of multisystem problems such as multiple trauma, toxicology, septic shock, and burns

Ace the PCCN® Ascencia Test Prep

About: To prepare you for real world practice, this book will highlight content areas most relevant to the bedside and why they must be mastered and understood. To help visualize the professional development that is needed as you transition to the responsibilities of the professional nurse, I use the metaphor of building a house; not a static structure, but a unique, vibrant "living" house that is a reflection of how you choose to build and add to it over time. Nursing is a living and vibrant practice that requires your personal involvement and engagement to promote the well-being of those you care for. The components of this "living" home include: Foundation: A house must have a firm and stable foundation. The ethical comportment or the art of nursing is this foundation for every nurse. Caring behaviors, nurse engagement, and professionalism in practice must be present or your nursing practice could be on shaky ground before it even begins! Walls: The applied sciences of nursing: pharmacology, fluid and electrolytes, and anatomy and physiology. I contextualize these sciences to the bedside so the relevance of mastering this content becomes apparent. Roof: Critical thinking and clinical reasoning, which is the thinking that is required by the nurse that completes the house and ties everything together. Skeletons in the closet: Every house has closets and some have a few skeletons in them! Incivility and men in nursing will be explored in detail!

Adult CCRN® Certification Review, Second Edition Mosby
