This book is as much about Prophet Muhammad, peace and blessing be upon him, as it is about his grandsons, Hasan and Husayn, may Allah be pleased with them, for truly, they were inseparable. From the moment of their births, grandfather and grandsons delighted in each other's company on a daily basis; he finding rest and relaxation in their company, and they revelling in the unconditional love he lavished upon them. Charming cameos of life in the noble Prophet's family, of the boys riding horseback on their grandfather, being carried by him, playing games together, having family arguments, all contribute to the sense that this is a very normal, human family. The story follows the two brothers into adulthood and pays tribute to the fine young men they become, thanks to the blessed Prophet's tutelage. Outstanding examples of what it means to be a true Muslim (Hasan, leader, preacher, peace-maker, supreme example of morality; Husayn, principled, courageous and self-sacrificing) both brothers die as martyrs for Islam, and find their rewards as Leaders of the Youth in Paradise-to the great delight of their grandfather!

While masculinities theory has had much to say on relationships of subordination, few feminist legal scholars have examined the implications of masculinities theory for feminist legal theory. This volume investigates the ways in which emerging masculinities theory in law could inform feminist legal theory in particular and law in general. As many of the chapters in this collection illustrate, law is constantly in a dynamic interaction with masculinities: it has both influenced existing masculinities and has been influenced by those masculinities. The contributions focus feminist and critical theoretical attention on masculinities and consider the implications of masculinities theory for law and legal theory. The book sets out the theoretical trajectory of masculinities studies as a field and its application in law and uses insights from a masculinities approach to study socio-political construction of gender identities in specific settings. It also explores how understanding historical construction of gender identities can inform more effective public policy and activism. Written by leading experts in the area, the book poses important questions about the development of the

relationship between feminisms and masculinities theory and will be essential reading for those working in law and gender and related areas.

The Art of Resistance in Islam Infobase Publishing

This book reconstructs the role of midwives in medieval to early modern Islamic history through a careful reading of a wide range of classical and medieval Arabic sources. The author casts the

midwife's social status in premodern Islam as a privileged position from which she could mediate between male authority in patriarchal society and female reproductive power within the family. This study also takes a broader historical view of midwifery in the Middle East by examining the tensions between learned medicine (male) and popular, medico-religious practices (female) from early Islam into the Ottoman period and addressing the confrontation between traditional midwifery and Western obstetrics in the first half of the nineteenth century.
