"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

The history of nations is a history of haves and have-nots, and as we approach the millennium, the gap between rich and poor countries is widening. In this engrossing and important new work, eminent historian David Landes explores the complex, fascinating and often startling causes of the wealth and poverty of nations. The answers are found not only in the large forces at work in economies: geography, religion, the broad swings of politics, but also in the small surprising details. In Europe, the invention of spectacles doubled the working life of skilled craftsmen, and played a prominent role in the creation of articulated machines, and in China, the failure to adopt the clock fundamentally hindered economic development. The relief of poverty is vital to the survival of us all. As David Landes brilliantly shows, the key to future success lies in understanding the lessons the past has to teach us - lessons uniquely imparted in this groundbreaking and vital book which exemplifies narrative history at its best.

In South America indigenous languages are extremely diverse. There are over one hundred language families in this region alone. Contributors from around the world explore the history and structure of these languages, combining insights from archaeology and genetics with innovative linguistic analysis. The book aims to uncover regional patterns and potential deeper genealogical relations between the languages. Based on a large-scale database of features from sixty languages, the book analyses major language families such as Tupian and Arawakan, as well as the Quechua/Aymara complex in the Andes, the Isthmo-Colombian region and the Andean foothills. It explores the effects of historical change in different grammatical systems and fills gaps in the World Atlas of Language Structures (WALS) database, where South American languages are underrepresented. An important resource for students and researchers interested in linguistics, anthropology and language evolution.

What would the island of Hispaniola look like if viewed as a loosely connected system? That is the question Haitian-Dominican Counterpoint seeks to answer as it surveys the insular space shared by Haiti and the Dominican Republic throughout their parallel histories. For beneath the familiar tale of hostilities, the systemic perspective reveals a lesser-known, "unitarian" narrative of interdependencies and reciprocal influences shaping each country's identity. In view of the sociocultural and economic linkages connecting the two countries, their relations would have to resemble not so much a cockfight (the conventional metaphor) as a serial and polyrhythmic counterpoint.

A lot of what we know about "exotic languages" is owed to the linguistic activities of missionaries. They had the languages put into writing, described their grammar and lexicon, and worked towards a standardization, which often came with Eurocentric manipulation. Colonial missionary work as intellectual (religious) conquest formed part of the Europeans' political colonial rule, although it sometimes went against the specific objectives of the official administration. In most cases, it did not help to stop (or even reinforced) the displacement and discrimination of those languages, despite oftentimes providing their very first (sometimes remarkable, sometimes incorrect) descriptions. This volume presents exemplary studies on Catholic and Protestant missionary linguistics, in the framework of the respective colonial situation and policies under Spanish, German, or British rule. The contributions cover colonial contexts in Latin America, Africa, and Asia across the centuries. They demonstrate how missionaries dealing with linguistic analyses and descriptions cooperated with colonial institutions and how their linguistic knowledge contributed to European domination.

Transportation conformity is required under the Clean Air Act (CAA) Section 176(c) to ensure that Federally-supported transportation activities are consistent with ("conform to") the purpose of a State Implementation Plan (SIP). Transportation conformity establishes the framework for improving air quality to protect public health and the environment. Conformity to the purpose of the SIP means Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funding and approvals are given to highway and transit activities that will not cause new air quality violations, worsen existing air quality violations, or delay timely attainment of the relevant air quality standard, or any interim milestone. This Guide was prepared to help State and local officials understand transportation conformity and how conformity requirements relate to transportation investments in their communities. Specifically, the implications of conformity on metropolitan transportation plans, transportation improvement programs (TIPs), and transportation projects are discussed. The Guide provides overview information on the major elements of the conformity process and provides answers to basic questions. Several exhibits are included in the Guide to illustrate key elements of the conformity process. Appendices are also included that discuss the health effects of pollutants, options to reduce on-road mobile source emissions, and resource agency contacts.

"Guarionex, un tipo duro, todo un Philip Marlowe a la dominicana", en palabras del periodista Pedro Araque. "El autor domina el ambiente hasta convertirlo casi en otro personaje más de la historia, imprescindible para comprender toda la trama. Sin rubor aparente se extiende justo lo necesario sobre colmados, suburbios y prostíbulos caribeños para que la historia encaje y el lector conozca un mundo oculto al turista: la auténtica vida de la República Dominicana, de sus sucios negocios y sus cruentas mafias." Sinopsis: Un matrimonio de turistas descubre el cuerpo sin vida de un extranjero completamente desnudo enterrado en una playa virgen en pleno corazón de Punta Cana. El caso es asignado al inspector de la policía Guarionex Torres quien, junto a las autoridades del país y a la poderosa industria turística, espera que la muerte no afecte negativamente a la reputación de la zona hotelera. Sin embargo, el descubrimiento de la identidad del cadáver y las extrañezas de la autopsia obligan al inspector a colaborar con un antiguo páter para seguir la pista de un secreto que ni siquiera esa muerte en el paraíso ha podido ocultar. Mientras Guarionex recorre los pasos del difunto en su semana de vacaciones, la ambición, la lealtad, la ira y la vergüenza de la familia lo llevan a adentrarse en un pasado que creía enterrado en lo más hondo de su memoria.

Escorting the Monarch is as close to an official history of the Metropolitan Police's 'Special Escort Group' (SEG) as one could hope for. You may have seen the team at work; as the combination of motorcycles and cars pass you by, they glide elegantly and seemingly effortlessly through busy traffic. Developing a dedicated and diligent team culture, they are masters of their trade. They hold a well-earned reputation for excellence amongst their peers; delivering their passengers (and cargo) on time, safely, in a great deal of style, and without fuss or mishap. Professional and precise in the execution of their operations, they are neither shaken nor stirred. Although the work of the SEG demands exquisitely high levels of presentation there is little room for gloss or glitter. The individuals and property they are charged to protect are assessed by government to need the highest possible levels of protection. From queens, kings, presidents and emperors, to priceless works of art, terrorists and high risk prisoners, the group escort them all. Written by the son of a retired SEG officer who himself served in the British Government's security and intelligence community, *Escorting the Monarch* is told, in part, through first hand stories and anecdotes gleaned from former officers of the group. The insights offered are unique, privileged and first of their kind. Chris Jagger unfolds a collection of fascinating and never before told stories built on high profile events, such as the funeral of Sir Winston Churchill, and the visit of Nelson Mandela. Now the SEG have honed their skills for over 6 decades. Through a carefully constructed description of a changing security and political environment across the decades, and an insightful analysis of the ingenuity of those who have severed with the SEG, *Escorting the Monarch* explains the events that made the group who they are today.

This accessible, hands-on text not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues; abundant examples and exercises allow students to focus on how to do historical linguistics.

Distinctive to this text is its integration of the standard topics with others now considered important to the field, including syntactic change, grammaticalization, sociolinguistic contributions to linguistic change, distant genetic relationships, areal linguistics, and linguistic prehistory. Examples are taken from a broad range of languages; those from the more familiar English, French, German, and Spanish make the topics more accessible, while those from non-Indo-European languages show the depth and range of the concepts they illustrate. This second edition features expanded explanations and examples as well as updates in light of recent work in linguistics, including a defense of the family tree model, a response to recent claims on lexical diffusion/frequency, and a section on why languages diversify and spread.

This is a long-awaited translation of a definitive account of the Republican Army in the Spanish Civil War. Michael Alpert examines the origins, formation and performance of the Republican Army and sets the Spanish Civil War in its broader military context. He explores the conflicts between communists and Spanish anarchists about how the war should be fought, as well as the experience of individual conscripts, problems of food, clothing and arms, and the role of women in the new army. The book contains extensive discussion of international aspects, particularly the role of the International Brigades and of the Soviet Russian advisers. Finally, it discusses the final uprising of professional Republican officers against the Government and the almost unconditional surrender to Franco. Professor Alpert also provides detailed statistics for the military forces available to Franco and to the Republic and biographies of the key figures on both sides.

This early work by Radclyffe Hall was originally published in 1928 and we are now republishing it with a brand new introductory biography. 'The Well of Loneliness' is a novel that follows an upper-class Englishwoman who falls in love with another woman while serving as an ambulance driver in World War I. Marguerite Radclyffe Hall was born on 12th August 1880, in Bournemouth, England. Hall's first novel *The Unlit Lamp* (1924) was a lengthy and grim tale that proved hard to sell. It was only published following the success of the much lighter social comedy *The Forge* (1924), which made the best-seller list of John O'London's Weekly. Hall is a key figure in lesbian literature for her novel *The Well of Loneliness* (1928). This is her only work with overt lesbian themes and tells the story of the life of a masculine lesbian named Stephen Gordon.

Soundscape Ecology represents a new branch of ecology and it is the result of the integration of

different disciplines like Landscape ecology, Bioacoustics, Acoustic ecology, Biosemiotics, etc. The soundscape that is the object of this discipline, is defined as the acoustic context resulting from natural and human originated sounds and it is considered a relevant environmental proxy for animal and human life. With Soundscape Ecology Almo Farina means to offer a new cultural tool to investigate a partially explored component of the environmental complexity. For this he intends to set the principles of this new discipline, to delineate the epistemic domain in which to develop new ideas and theories and to describe the necessary integration with all the other ecological/environmental disciplines. The book is organized in ten chapters. The first two chapters delineate principles and theory of soundscape ecology. Chapters three and four describe the bioacoustic and communication theories. Chapter five is devoted to the human dimension of soundscape. Chapters six to eight regard the major sonic patterns like noise, choruses and vibrations. Chapter nine is devoted to the methods in soundscape ecology and finally chapter ten describes the application of the soundscape analysis.

Argentinean philosopher, theologian, and historian Enrique Dussel understands the present international order as divided into the "culture of the center" -- by which he means the ruling elite of Europe, North America, and Russia -- and "the peoples of the periphery" -- by which he means the populations of Latin America, Africa, and part of Asia, and the oppressed classes (including women and children) throughout the world. In 'Philosophy of Liberation,' he presents a profound analysis of the alienation of peripheral peoples resulting from the imperialism of the center for more than five centuries. Dussel's aim is to demonstrate that the center's historic cultural, military, and economic domination of poor countries is 'philosophically' founded on North Atlantic ontology. By expressing supposedly universal knowledge, European philosophies, argues Dussel, have served to equate the cultural standards, modes of behavior, and rationalistic orientation of the West with human nature and to condemn the unique characteristics of peripheral peoples as "nonbeing, nothing, chaos, irrationality." Hence, Western philosophies have historically legitimated and hidden the domination that oppressed cultures have suffered at the hands of the center. Dussel probes multinational corporations, the communications media, and the armies of the center with their counterparts among the Third World elite. The creation of a just world order in the future, according to Dussel, hinges on the liberation of the periphery, based on a philosophy that is able to "think the world" from the perspective of the poor and to reclaim the Third World's distinct cultural inheritance, which is imbedded in the popular cultures of the poor. Apart from the liberation of the periphery, there will be no future: "the center will feed itself on the sameness it has ingrained within itself. The death of the child, of the poor, will be its own death." This is a disquieting but stimulating book for scholars and advanced students of philosophy, ethics, liberation theology, and global politics.
