This book analyzes the social and contextual causes of suicide, the existential and philosophical reasons for committing suicide, and the prevention strategies that modern fictional literature places at our disposal. They go through the review of Modern fictional literature, in the American and European geographical framework, following the rationales that modern literature based on fiction can serve the purpose of understanding better the phenomenon of suicide, its most inaccessible impulses, and that has the potential to prevent suicide. From the turn of the 20th century to the present, debates over the meaning of suicide became a privileged site for efforts to discover the reasons why people commit suicide and how to prevent this behavior. Since the French sociologist and philosopher Émile Durkheim published his study *Suicide: A Study in Sociology* in 1897, a reframing of suicide took place, giving rise to a flourishing group of researchers and authors devoting their efforts to understand better the causes of suicide and to the formation of suicide prevention organizations. A century later, we still keep on trying to reach such an understanding of suicide, the nature, and nuances of its modern conceptualization, to prevent suicidal behaviors. The question of what suicide means in and for modernity is not an overcome one. Suicide is an act that touches all of our lives and engages with the incomprehensible and unsayable. Since the turn of the millennium, a fierce debate about the state's role in assisted suicide has been adopted. Beyond the discussion as to whether physicians should assist in the suicide of patients with unbearable and hopeless suffering, the scope of the suicidal agency is much broader concerning general people wanting to die.

The Bible was the essence of virtually every aspect of the life of the early churches. The Oxford Handbook of Early Christian Biblical Interpretation explores a wide array of themes related to the reception, canonization, interpretation, uses, and legacies of the Bible in early Christianity. Each section contains overviews and cutting-edge scholarship that expands understanding of the field. Part One examines the material text transmitted, translated, and invested with authority, and the very conceptualization of sacred Scripture as God's word for the church. Part Two looks at the culture and disciplines or science of interpretation in representative exegetical traditions. Part Three addresses the diverse literary and non-literary modes of interpretation, while Part Four canvasses the communal background and foreground of early Christian interpretation, where the Bible was paramount in shaping normative Christian identity. Part Five assesses the determinative role of the Bible in major developments and theological controversies in the life of the churches. Part Six returns to interpretation proper and

samples how certain abiding motifs from within scriptural revelation were treated by major Christian expositors. The overall history of biblical interpretation has itself now become the subject of a growing scholarship and the final part skilfully examines how early Christian exegesis was retrieved and critically evaluated in later periods of church history. Taken together, the chapters provide nuanced paths of introduction for students and scholars from a wide spectrum of academic fields, including classics, biblical studies, the general history of interpretation, the social and cultural history of late ancient and early medieval Christianity, historical theology, and systematic and contextual theology. Readers will be oriented to the major resources for, and issues in, the critical study of early Christian biblical interpretation.

Basic Teachings of the Bible is a series of books that cover the Questions Christians ask, with biblical answers, Why Study the Bible? Where Did God Come From? Is Speaking in Tongues Evidence of True Christianity? Do We Have a Soul that Is Apart From Us? Does Abortion Show Respect for Life? Do We Possess a Soul or Are We a Soul? Does the Bible Teach Universal Salvation? What Is Inerrancy of Scripture? Does the Bible Teach Liberation Theology? Does It Matter Which Bible Translation? Was Job a Real Historical Person? These are the type of basic Bible questions that are discussed and debated, before and after church services, at Christian gatherings, and on the internet. There are literally hundreds of them. These are questions that Bible critics might raise as well, which Christians have struggled to answer and now will have a simplified biblical response. The Bible will give us the answers to these questions, as well as reasoning and explaining from the Scriptures. If the texts are straightforward, which answer the question(s), the text alone will be used. However, if the text is difficult to understand, reasoning from the Scriptures will be used with the text. We will answer some of the questions in just 2-3 pages, while some may take up to 15 pages or more. It is hoped that the reader will find the answers as additional evidence demonstrating that the Bible is the best source for guiding one's life. This publication is VOLUME 2 of numerous volumes to come.

This book illuminates the racialized nature of twenty-first century Western popular culture by exploring how discourses of race circulate in the Fantasy genre. It examines not only major texts in the genre, but also the impact of franchises, industry, editorial and authorial practices, and fan engagements on race and representation. Approaching Fantasy as a significant element of popular culture, it visits the struggles over race, racism, and white privilege that are enacted within creative works across media and the communities which revolve around them. While scholars of Science Fiction have explored the genre's racialized constructs of possible futures, this book is the first examination of Fantasy to take up the topic of race in depth. The book's interdisciplinary approach, drawing on Literary, Cultural, Fan, and Whiteness Studies, offers a cultural history of the anxieties which haunt Western popular culture in a century eager to declare itself post-race. The beginnings of the Fantasy genre's habits of whiteness in the twentieth century are examined, with an exploration of the continuing impact of older problematic works through franchising, adaptation, and imitation. Young also discusses the major twenty-first century sub-genres which both re-use and subvert Fantasy conventions. The final chapter explores debates and anti-racist praxis in authorial and fan communities. With its multi-pronged approach and innovative methodology, this book is an important and original contribution to studies of race, Fantasy, and twenty-first century popular culture.

As traced by Roger D. Sell, literary communication is a process of community-making. As long as literary authors and those responding to them respect each other's human autonomy, literature flourishes as an enjoyable, though often challenging mode of interaction that is truly dialogical in spirit. This gives rise to author-respondent communities whose members represent existential commonalities blended together with historical differences. These heterogeneous literary communities have a larger social significance, in that they have long served as counterweights to the hegemonic tendencies of modernity, and more recently to postmodernity's well-intentioned but restrictive politics of identity. In post-postmodern times, their ethos is increasingly one of pleasurable egalitarianism. The despondent anti-hedonism of the twentieth century intelligentsia can now seem rather dated. Some of the papers selected for this volume develop Sell's ideas in mainly theoretical terms. But most of them offer detailed criticism of particular anglophone writers, ranging from Shakespeare, Ben Jonson and other poets and dramatists of the early modern period, through Wordsworth and Coleridge, to Dickens, Pinter, and Rushdie.

The study of contemporary fiction is a fascinating yet challenging one. Contemporary fiction has immediate relevance to popular culture, the news, scholarly organizations, and education – where it is found on the syllabus in schools and universities – but it also offers challenges. What is 'contemporary'? How do we track cultural shifts and changes? The Routledge Companion to Twenty-First Century Literary Fiction takes on this challenge, mapping key literary trends from the year 2000 onwards, as the landscape of our century continues to take shape around us. A significant and central intervention into contemporary literature,

this Companion offers essential coverage of writers who have risen to prominence since then, such as Hari Kunzru, Jennifer Egan, David Mitchell, Jonathan Lethem, Ali Smith, A. L. Kennedy, Hilary Mantel, Marilynne Robinson, and Colson Whitehead. Thirty-eight essays by leading and emerging international scholars cover topics such as: • Identity, including race, sexuality, class, and religion in the twenty-first century; • The impact of technology, terrorism, activism, and the global economy on the modern world and modern literature; • The form and format of twenty-first century literary fiction, including analysis of established genres such as the pastoral, graphic novels, and comedic writing, and how these have been adapted in recent years. Accessible to experts, students, and general readers, The Routledge Companion to Twenty-First Century Literary Fiction provides a map of the critical issues central to the discipline, as well as uncovering new perspectives and new directions for the development of the field. It is essential reading for anyone interested in the past, present, and future of contemporary literature.
