This book explores the life of Robert Lyall, surgeon, botanist, voyager, British Agent to the court of Madagascar. Born the year of the French Revolution, Lyall grew up in politically radical Paisley, Scotland, before studying medicine, in Edinburgh, Manchester, and subsequently St. Petersburg, Russia. His

criticism of the Tsar and Russian aristocracy led to an abrupt departure for London where Lyall became the voice of liberalism and calls for political reform, before appointed British Resident Agent in Madagascar in 1827, representing the interests of the Tory establishment that he had hitherto so roundly castigated. However, Lyall discovered that the Malagasy crown had turned against the British alliance of 1820, his scientific pursuits alienated the local elite,

and his efforts to re-establish British influence antagonized the queen, Ranavalona I, who accused Lyall of sorcery and forced him and his burgeoning family to leave for Mauritius where he died an untimely death, of malaria, in 1831.

Cosimo, Inc. In Initiating the Millennium, Robert Collis and Natalie Bayer fill a substantial lacuna in the study of an initiatic society--known variously

as the Illuminés d'Avignon, the Avignon Society, the New Israel Society, and the Union--that flourished across Europe between 1779 and 1807. Based on hitherto neglected archival material, this study provides a wealth of fresh insights into a group that included members of various Christian confessions from countries spanning the length and breadth of the Continent. The founding members of this society forged a unique group that incorporated distinct

strands of Western esotericism (particularly alchemy and arithmancy) within an all-pervading millenarian worldview. Collis and Bayer demonstrate that the doctrine of premillennialism--belief in the imminent advent of Christ's reign on Earth--soon came to constitute the *raison d'être* of the society. Using a chronological approach, the authors chart the machinations of the leading figures of the society (most notably the Polish gentleman Tadeusz

Grabianka). They also examine the way in which the group reacted to and was impacted by the tumultuous events that rocked Europe during its twenty-eight years of existence. The result is a new understanding of the vital role played by the so-called Union within the wider millenarian and illuministic milieu at the close of the eighteenth century and beginning of the nineteenth century. *Grand dictionnaire universel du XIXe siècle, français, historique, géographique,*

Once considered the largest and most extensive source of biographies in the English language, The Universal Dictionary of Biography and Mythology contains information on nearly every historical figure, notable name, and important subject of mythology from throughout the world prior to the 20th century. Spanning all fields of human effort-from

literature and the arts to philosophy and science- and touching on topics from multiple areas of mythological study, including Norse, Greek, and Roman, this extraordinary reference guide continues to be one of the most thorough and accurate collections of biographical data ever created. Combining mythological and biographical entries into a single, comprehensive list, and incorporating a unique system of indicating pronunciation and orthography, The

Universal Dictionary of Biography and Mythology offers readers an unparalleled record of historically significant identities, from the obscure and forgotten newsmakers of yesteryear to the highly celebrated shapers of history that remain influential today. Volume IV (PRO-ZYP) of this exquisite four-volume set includes information on such names as Roman critic and teacher of rhetoric Quintilian, Sir Walter Raleigh, Italian painter Raphael, Socrates, English novelist William

Makepeace Thackeray, Ulysses, Leonardo da Vinci, Latin poet Virgil, American inventor Eli Whitney, Xerxes, Mormon priest Brigham Young, and Zeus, as well as sections dedicated to Christian names and disputed or doubtful pronunciations. JOSEPH THOMAS (1811-1891) also wrote A Comprehensive Medical Dictionary, various pronouncing vocabularies of biographical and geographical names, and a system of pronunciation for Lippincott's Pronouncing Gazetteer of

the World.
