In James Grabill's unique view no one should settle for a world that conducts itself as though there were no mythic dimension; his other collection of essays and his many stunning books of poems make this clear. But unlike many American writers critical of the way this world we shouldn't settle for is going, Grabill has the visionary skill to give us a glimpse of how it should be going. In the face of the escalating inanity and aridness of post-industrial life, the fine pieces in this volume insist that compassion triumph over cruelty, meditative clarity over bombast and spin. It is a great delight to feel the weight of Grabill's conviction (along with his immense talent) and, with sea lions, lorikeets, giant ferns, and humpback whales, to follow it to the top of the sky, where it is so much easier to see what matters and what does not. --Christopher Howell About the Author(s) James Grabill was born in Ohio and attended The College of Wooster, Bowling Green State University, and Colorado State University, from which he earned MA and MFA degrees. His book, Poem Rising Out of the Earth and Standing Up in Someone (Lynx House, 1994) was awarded the Oregon Book Award for Poetry in 1995. His work has appeared widely in publications such as Willow Springs, Poetry East, The Prose Poem, Field, East West Journal, New Age Journal, The Common Review, The Bitter Oleander, and others. He lives in Portland, Oregon, and teaches literature and writing at Clackamas Community College in Oregon City.

NEW YORK TIMES BESTSELLER • TODAY SHOW BOOK CLUB PICK • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST AND ST. LOUIS POST-DISPATCH From the New York Times bestselling author of *Loving Frank* comes a much-anticipated second novel, which tells the improbable love story of Scottish writer Robert Louis Stevenson and his tempestuous American wife, Fanny. At the age of thirty-five, Fanny Van de Grift Osbourne has left her philandering husband in San Francisco to set sail for Belgium—with her three children and nanny in tow—to study art. It is a chance for this adventurous woman to start over, to make a better life for all of them, and to pursue her own desires. Not long after her arrival, however, tragedy strikes, and Fanny and her children repair to a quiet artists' colony in France where she can recuperate. Emerging from a deep sorrow, she meets a lively Scot, Robert Louis Stevenson, ten years her junior, who falls instantly in love with the earthy, independent, and opinionated "belle Americaine." Fanny does not immediately take to the slender young lawyer who longs to devote his life to writing—and who would eventually pen such classics as *Treasure Island* and *The Strange Case of Dr. Jekyll and Mr. Hyde*. In time, though, she succumbs to Stevenson's charms, and the two begin a fierce love affair—marked by intense joy and harrowing darkness—that spans the decades and the globe. The shared life of these two strong-willed individuals unfolds into an adventure as impassioned and unpredictable as any of Stevenson's own unforgettable tales. Praise for *Under the Wide and Starry Sky* "A richly imagined [novel] of love, laughter, pain and sacrifice. . . . *Under the Wide and Starry Sky* is a dual portrait, with Louis and Fanny sharing the limelight in the best spirit of teamwork—a romantic partnership."—USA Today "Powerful . . . flawless . . . a perfect example of what a man and a woman will do for love, and what they can accomplish when it's meant to be."—Fort Worth Star-Telegram "Horan's prose is gorgeous enough to keep a reader transfixed, even if the story itself weren't so compelling. I kept re-reading passages just to savor the exquisite wordplay. . . . Few writers are as masterful as she is at blending carefully researched history with the novelist's art."—The Dallas Morning News "A classic artistic bildungsroman and a retort to the genre, a novel that shows how love and marriage can simultaneously offer inspiration and encumbrance."—The New York Times Book Review

Brother Eagle, Sister Sky Crown

Through their scientific research and clinical practice, husband and wife team Gene D. Cohen and Wendy L. Miller uncovered new clues about how the aging mind can build resilience and continue growth, even during times of grave illness, thus setting aside the traditional paradigm of aging as a time of decline. Cohen, considered one of the founding fathers of geriatric psychiatry, describes what happens to the brain as it ages and the potential that is often overlooked. Miller, an expressive arts therapist and educator, highlights stories of creative growth in the midst of illness and loss encountered through her clinical practice. Together, Cohen and Miller show that with the right tools, the uncharted territory of aging and illness can, in fact, be navigated. In this book, the reader finds the real story of not only Cohen's belief in potential, but also how he and his family creatively used it in facing his own serious health challenges. With Miller's insights and expressive psychological writing, *Sky Above Clouds* tells the inside story of how attitude, community, creativity, and love shape a life, with or without health, even to our dying. Cohen and Miller draw deeply on their own lessons learned as they struggle through aging, illness, and loss within their own family and eventually Cohen's own untimely death. What happens when the expert on aging begins to age? And what happens when the therapist who helps others cope with illness and loss is forced to confront her own responses to these experiences? The result is a richly informative and emotional journey of growth.

Above Us Only Sky Clarkson Potter

Don Cupitt believes that a new and truly global religious consciousness has been quietly easing itself in around the world. It does not need any visible organization and does not make any non-rational doctrinal claims. It is the religion of life a secular, purely this-worldly, and radically-democratic affirmation of ordinary life. Where prescientific ages saw Heaven, he says, we see only sky. We have given up belief in a supernatural world, and we have felt compelled to break with the received ecclesiastical form of Christianity. But the Christian spirit of critical thinking, of systematic self-criticism and perpetual reform, has spread around the whole world in modern science, technology, critical history, and liberal democracy. In *Above Us Only Sky*, in 27 brief slogans, he presents a systematic theology of this religion of ordinary life, setting it against its philosophical background, its spirituality and its relation to other faiths. It is, he says, the legacy and the long-awaited fulfillment of Christianity.

Presenting spectacular photographs of astronomical objects of the southern sky, all taken by author Stephen Chadwick, this book explores what peoples of the South Pacific see when they look up at the heavens and what they have done with this knowledge. From wives killing brothers to emus rising out of the desert and great canoes in the sky, this book offers the perfect blend of science, tradition and mythology to bring to life the most famous sights in the heavens above the southern hemisphere. The authors place this starlore in the context of contemporary understandings of astronomy. The night sky of southern societies is as rich in culture as it is in stars. Stories, myths and legends based on constellations, heavenly bodies and other night sky phenomena have played a fundamental role in shaping the culture of pre-modern civilizations throughout the world. Such starlore continues to influence societies throughout the Pacific to this day, with cultures throughout the region - from Australia and New Zealand in the south to New Guinea and Micronesia in the north - using traditional cosmology as a means of interpreting various aspects of everyday life.

Under the Sky We Make Catapult

NATIONAL BESTSELLER • WINNER OF THE PULITZER PRIZE • A searing, post-apocalyptic novel about a father and son's fight to survive, this "tale of survival and the miracle of goodness only adds to McCarthy's stature as a living master. It's gripping, frightening and, ultimately, beautiful" (*San Francisco Chronicle*). A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. *The Road* is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.
