The untold story of US Special Forces in Laos, one of the longest secret wars of the Cold War—by a military historian and Special Forces veteran. The Secret War in Laos was one of the first “long wars” fought by US Special Forces, spanning a period of about thirteen years. It was one of the largest CIA-paramilitary operations of the time, kept out of the view of the American public until now. Between 1959 and 1974, Green Berets were covertly deployed to Laos during the Laotian Civil War to prevent the Communist Pathet Lao from taking over the country. Operators disguised as civilians and answering only to “Mister,” were delivered to the country by Air America, where they reported to the US Ambassador. With limited resources, they faced a country in chaos. Maps had large blank areas. and essential supplies often didn’t arrive at all. In challenging tropical conditions, they trained and undertook combat advisory duties with the Royal Lao Government. Shrouded in secrecy until the 1990s, this was one of the first major applications of special warfare doctrine. Now, the story is comprehensively told for the first time using official archival documents and interviews with veterans.

British Rock Modernism, 1967-1977 explains how the definitive British rock performers of this epoch aimed, not at the youthful rebellion for which they are legendary, but at a highly self-conscious project of commenting on the business in which they were engaged. They did so by ironically appropriating the traditional forms of Victorian music hall. Faulk focuses on the mid to late 1960s, when British rock bands who had already achieved commercial prominence began to aspire to aesthetic distinction. The book discusses recordings such as the Beatles' Magical Mystery Tour album, the Kinks' The Village Green Preservation Society, and the Sex Pistols' Never Mind the Bollocks, Here's the Sex Pistols, and television films such as the Beatles' Magical Mystery Tour and the Rolling Stones' Rock and Roll Circus that defined rock's early high art moment. Faulk argues that these 'texts' disclose the primary strategies by which British rock groups, mostly comprised of young working and lower middle-class men, made their bid for aesthetic merit by sampling music hall sounds. The result was a symbolically charged form whose main purpose was to unsettle the hierarchy that set traditional popular culture above the new medium. Rock groups engaged with the music of the past in order both to demonstrate the comparative vitality of the new form and signify rock's new art status, compared to earlier British pop music. The book historicizes punk rock as a later development of earlier British rock, rather than a rupture. Unlike earlier groups, the Sex Pistols did not appropriate music hall form in an ironic way, but the band and their manager Malcolm McLaren were obsessed with the meaning of the past for the present in a distinctly modernist fashion.

Kierkegaard's account of the life of faith turns on an astonishing claim: a person living faithfully continually enjoys, and takes part in, everything. What can this assertion actually mean? The pseudonymous author of Fear and Trembling, Johannes de silentio, imagines what such a human being might look like; indeed, as de silentio puts it, 'He looks just like a tax collector'. This seemingly ordinary person, in his 'movements' of faith, finds infinite significance and an absorbing joy in his environment, from moment to moment. How does he do it? This characterization of faithful comportment is unique in the Kierkegaardian corpus, and becomes the tantalizing centerpiece of an exploration of the Kierkegaardian self. Sheridan Hough embarks on a groundbreaking 'existential/ phenomenological' investigation of the uncanny abilities of the faithful life through an analysis of Kierkegaard's 'spheres of existence'; each sphere reveals a specific kind of significance, and indeed a way of 'being in the world'. Hough employs a distinctively original narrative voice, one that examines Kierkegaard's ontology from the perspective of his pseudonymous voices, and from the characters that they create. This approach is both descriptive and diagnostic: by understanding what someone living out an aesthetic, ethical, or a religious existence seeks to achieve, the phenomenon of the faithful life, and its demands, comes into sharper focus. This faith is not simply some thought about God's greatness-indeed, the 'propositional content' of faith is a central issue of the book. Instead, Hough argues that Kierkegaardian faith is the hallmark of the fullest flowering of a human life, one achieved in ways only hinted at in the demeanor of the cheerful and enigmatic 'tax collector,' an existential task in which 'temporality, finitude is what it is all about'.

This book focuses exclusively on the application of PowerPoint to the creation of online training programs. Better than Bullet Points, Creating Engaging e-Learning with PowerPoint fills that gap. By providing in-depth guidance, specific instructions, and helpful exercises, the book will enable training practitioners to create impactful learning interactions in PowerPoint. The author steps readers through the powerful features of this popular desktop application, covering everything from text to art, animation to interactivity. Provided that the reader owns a copy of PowerPoint, this book will immediately put free real-world tools into the hands of those who need it. The information is practical rather than theoretical and immediately applicable. Most importantly, this book will help make e-learning accessible to those who have previously been excluded from taking advantage of the opportunities e-learning can provide. Jane Bozarth is the e-learning coordinator for the North Carolina Office of State Personnel's Human Resource Development Group and has been a training practitioner since 1989. She is a columnist for Training Magazine and has written for numerous publications including Creative Training Techniques Newsletter and the Journal of Educational Technology and Society.

In this book, Curtis Gruenler proposes that the concept of the enigmatic, latent in a wide range of medieval thinking about literature, can help us better understand in medieval terms much of the era's most enduring literature, from the riddles of the Anglo-Saxon bishop Aldhelm to the great vernacular works of Dante, Chaucer, Julian of Norwich, and, above all, Langland's Piers Plowman. Riddles, rhetoric, and theology—the three fields of meaning of aenigma in medieval Latin—map a way of thinking about reading and writing obscure literature that was widely shared across the Middle Ages. The poetics of enigma links inquiry about language by theologians with theologically ambitious literature. Each sense of enigma brings out an aspect of this poetics. The playfulness of riddling, both oral and literate, was joined to a Christian vision of literature by Aldhelm and the Old English riddles of the Exeter Book. Defined in rhetoric as an obscure allegory, enigma was condemned by classical authorities but resurrected under the influence of Augustine as an aid to contemplation. Its theological significance follows from a favorite biblical verse among medieval theologians, "We see now through a mirror in an enigma, then face to face" (1 Cor. 13:12). Along with other examples of the poetics of enigma, Piers Plowman can be seen as a culmination of centuries of reflection on the importance of obscure language for knowing and participating in endless mysteries of divinity and humanity and a bridge to the importance of the enigmatic in modern literature. This book will be especially useful for scholars and undergraduate students interested in medieval European literature, literary theory, and contemplative theology.
