Build your skills in the science and art of maternity and pediatric nursing! Maternal-Child Nursing, 6th Edition makes it easy to understand the essentials of women's health, maternity, and children's nursing care. It simplifies the steps of the nursing process and relates them to care, helping you develop clinical judgment skills and provide safe, effective care in evidence-based practice. This edition adds case studies preparing you for the new Next Generation NCLEX® examination. Best of all, active learning tools and features make it fun to master nursing concepts, offering plenty of opportunities to apply your knowledge to the practice setting. Nursing Care Plans help students apply the nursing process to plan individualized care in the most common maternity and pediatric situations. Clinical Reference sections in pediatrics chapters provide basic information on disorders and their related anatomy and physiology, differences in body systems between children and adults, commonly used drugs, lab values, diagnostic tests, and procedures. Clinical Judgment boxes highlight situations designed to test clinical judgment skills. Health Promotion boxes highlight information needed to perform a comprehensive assessment of well infants and children at various ages. Safety Alerts emphasize what is important to remember when providing safe and optimal quality care. Pathophysiology boxes present an illustrated overview of illnesses and how to manage them. Want to Know boxes provide teaching guidelines, including sample answers for questions that are likely to be asked or topics that need to be taught. Communication Cues offer practical tips for verbal and nonverbal communication with patients and families. Glossary at the end of the book gives students quick access to all key terms and definitions. NEW! Next Generation NCLEX® (NGN) examination-style case studies expose students to how content will be tested in the exam; case studies are either single-situation or unfolding studies. NEW! Updated Drug Guides summarize the latest information on medications.

Offers a friendly overview of playground safety tips and skills, such as taking turns going down the slide. Vivid photographs and easy-to-read text aid comprehension for early readers. Features include a table of contents, an infographic, fun facts, Making Connections questions, a glossary, and an index. A QR Code in each chapter gives readers access to additional online resources to further their learning. Aligned to Common Core Standards and correlated to state standards. Cody Koala is an imprint of Pop!, a division of ABDO.

Children's Play Areas and Equipment Scholastic Inc.

Occupational Safety and Hygiene presents selected papers from the International Symposium on Occupational Safety and Hygiene - SHO2013 (Guimarães, Portugal, 14-15 February 2013), which was organized by the Portuguese Society for Occupational Safety and Hygiene (SPOSHO). The contributions from 15 different countries focus on: - Occupational safety - Risk assessment - Safety management - Ergonomics - Management systems - Environmental ergonomics - Physical environments - Construction safety - Human factors The papers included in the book are mainly based on research carried out at universities and other research institutions, but they are also based on practical studies developed by Occupational Health & Safety (OHS) practitioners within their companies. As a result, this book will be useful to get acquainted with the state-of-the-art of the research within the aforementioned domains, as well as with some practical tools and approaches that are currently used by OHS professionals worldwide.

This book provides an analysis of children's play across many different cultural communities around the globe. Each chapter discusses children's play as an activity important for formal and informal education, mental health and childhood well-being, and children's hobbies and past-times.

Traditional, modern and postmodern play forms are discussed and probed for their meaning within a contemporary global community. Authors address the functions that this phenomenon serves for indigenous cultures and the problems that arise due to the globalization of educational and social resources. Issues that are covered include the importance of conceptualizing the relationship between play and culture, how play varies both within and between cultures, children's non-play activities in relation to play activities, how play is learned and how adults, parents and teachers, as well as older peers and siblings, are all important influences on the play of children. Questions that are raised include: Is it fair to emphasize the importance of certain kinds of play, such as social pretense play? Is this ethnocentric? Is the mastery of certain forms of play (e.g. socio-dramatic play) during the early years critical in the acculturation process? How are different cultures incorporating literacy props in play, or otherwise developing early educational programmes that use play educationally to foster literacy acquisition? These and many other questions or issues are taken up in this volume. At the heart of the book is a focus on human rights, in particular the Child's Right to Play as stated in the UN Convention on the Rights of the Child. The book is committed to the principle of all children reaching their full potential and the enhancement of their families, communities, and cultures through play.

Schools in Australia and around the world all have procedures and rules for keeping children safe. Even at school, where there are teachers to look after them, children still need to learn about safety and behaving thoughtfully towards others. Once they leave school grounds, children face different challenges, including road safety and stranger danger. Feeling sick, facing a sudden emergency, sun safety and much more are all covered, making this book a useful resource for any parent or teacher, as well as vital reading for children themselves.

[Teachable Moments](#) Millbrook Press™

Thoughtful and timely, this book will help readers learn how to create an everyday preschool environment in which children feel safe; and, how to provide for children's safety in a variety of emergency situations without creating an atmosphere of fear. Coverage identifies positive steps teachers can take to deal with their own fear as well as children's fears; ways to set-up both indoor and outdoor areas with safety in mind; how to prepare for emergencies without worrying children; and, how to teach safe behavior through play. Most of the strategies discussed are presented in checklist format and followed by activities for involving children in the strategy's message and lists of relevant children's books. For prospective early childhood educators, or those promoting the health, safety, and nutrition in a preschool environment.

Positive Discipline for Preschoolers Harper Collins

We accomplish extraordinary things when we do ordinary things together. This heartfelt and hopeful conviction led LSU professor Marybeth Lima to begin the LSU Community Playground Project as a way to involve her students in the larger Baton Rouge community. Fifteen years and over seven hundred students later, Building Playgrounds, Engaging Communities tells the remarkable story of the Playground Project's ongoing partnership with area public schools to design and build safe, fun, accessible, kid-designed playgrounds. Lima's experiences with the Playground Project range from outright failures to hard-won victories. Overcoming the challenges of working with scarce resources and persevering despite many setbacks, Lima and her students succeeded with hope, humor, and dedication. Building Playgrounds, Engaging Communities emphasizes the major impact people have when they work together for the common good—whether by building playgrounds, establishing neighborhood gardens, or participating in honest, respectful conversations. To this end, Lima provides an appendix with practical advice for local engagement. People wanting to make a difference in their communities can use this book as a road map; those active in long-term endeavors will draw on it for ideas and inspiration.

Making Content Comprehensible for Secondary English Learners Teachers College Press

An irrepressible new girl dethrones the reigning recess bully by becoming her friend in this infectious playground romp. Mean Jean was Recess Queen and nobody said any different. Nobody swung until Mean Jean swung. Nobody kicked until Mean Jean kicked. Nobody bounced until Mean Jean bounced. If kids ever crossed her, she'd push 'em and smooch 'em lollapalooosh 'em, hammer 'em, slammer 'em kitz and kajammer 'em. Until a new kid came to school! Parents and teachers will appreciate the story's deft handling of conflict resolution (which happens without adult intervention). "A lively story about the power of kindness and friendship" -- Publishers Weekly "A lighthearted look at a serious topic in schools and on playgrounds everywhere..." -- School Library Journal "Great for reading aloud and joining in." -- Booklist

[Manners at School](#) Marshall Cavendish

This open access book examines the educational conditions that support cultures of exploration in kindergartens. It conceptualises cultures of exploration, whether those cultures are created through children's own engagement or are demanded of them through undertaking specific tasks within different institutional settings. It shows how the conditions for children's exploration form a web of activities in different settings with social relationships, local landscapes and artefacts. The book builds on the understanding of cultural traditions as deeply implicated in the developmental processes, meaning that local considerations must be reflected in education for sustainable futures. Therefore the book examines and conceptualises exploration and cultural formation through locally situated cases and navigates toward global educational concepts. The book provides different windows into how children may explore in everyday practice settings in kindergarten, and contributes to a loci-based, ecological, integral knowledge relevant for early childhood education.

Clear, practical advice for adults observing children's cognitive development associated with Jean Piaget's schema theory.

I Read Signs CRC Press

Play is critical to children's well-being and development. All students should have access to and adequate time for positive play experiences every day. *Learning and Connecting in School Playgrounds* invites parents, teachers, principals and education administrators to take another look at their school playgrounds as spaces crucial to learning, well-being and development. This book combines research findings, commentary and the authors' personal experiences and observations together with the views of teachers, principals, parents and students related to play and play spaces. Key content includes consideration of the role of adults in the school playground, the influence of technology on play, the challenges experienced by children transitioning to new school environments and consideration of strategies to support students' access and participation in the playground. Cases are presented to illustrate the use of an audit tool to enhance school playgrounds. The future of school playgrounds is also considered through the reported hopes and dreams of adults and students and a range of recommendations are made for the review and development of schools' outdoor play spaces. *Learning and Connecting in School Playgrounds* is written with a sense of urgency, calling for the recognition of positive play experiences as invaluable to children's education. It includes important and challenging insights to inform and guide decision-making and will be an essential resource for all stakeholders who share responsibility for children's participation and learning during school break-times.

Children's Exploration and Cultural Formation Cody Koala

How do we understand what curriculum 'is' and 'does' for both learners and teachers? Using actual field-based vignettes, this book introduces teachable moment-oriented, emergent-oriented, and negotiation-oriented curricula practices, and explores how, while the three curricula notions are distinctively different from one another, they are simultaneously interconnected. *Teachable Moments* is a valuable resource for teachers at all levels. In addition, this is a book for senior undergraduate- and graduate-level early childhood curriculum courses, as well as graduate students and faculty who are interested in studying contemporary postmodern curricula discourses.

Handbook for Public Playground Safety Springer Nature

Completely updated to report the latest research in child development and learning, *Positive Discipline for Preschoolers* will teach you how to use methods to raise a child who is responsible, respectful, and resourceful. Caring for young children is one of the most challenging tasks an adult

will ever face. No matter how much you love your child, there will be moments filled with frustration, anger, and even desperation. There will also be questions: Why does my four-year-old deliberately lie to me? Why won't my three-year-old listen to me? Should I ever spank my preschooler when she is disobedient? Over the years, millions of parents just like you have come to trust the *Positive Discipline* series and its commonsense approach to child-rearing. This revised and updated third edition includes information from the latest research on neurobiology, diet and exercise, gender differences and behavior, the importance of early relationships and parenting, and new approaches to parenting in the age of mass media. In addition, this book offers new information on reducing anxiety and helping children feel safe in troubled times. You'll also find practical solutions for how to:

- Avoid the power struggles that often come with mastering sleeping, eating, and potty training
- See misbehavior as an opportunity to teach nonpunitive discipline—not punishment
- Instill valuable social skills and positive behavior inside and outside the home by using methods that teach important life skills
- Employ family and class meetings to tackle behavioral challenges
- And much, much more!

Special Needs Ministry for Children McGraw-Hill Education (UK)

Open your heart to the most amazing ministry a church can have! Do you know what it takes to make these kids - and their parents - feel welcome in your church?
