Through his  
groundbreaking studies  
on Pentateuchal criticism,  
Karl Heinrich Graf  
(1815–1869), Old  
Testament scholar and  
Orientalist, made a major  
contribution to research  
on the origin of the  
Pentateuch and on the  
reconstruction of the  
history of religion in  
ancient Israel. Despite his  
importance as a 19th

century scholar, Graf  
never held a chair at a  
German university. This  
book describes and  
recognizes Graf's Old  
Testament scholarship,  
placing it into the context  
of his biography and  
within the history of  
research.

The Kingdom of Jimma  
Abba Jifar, established ca  
1830, was the largest and  
most powerful of five  
monarchies formed by the  
Oromo peoples in south-  
western Ethiopia. Based

on extensive fieldwork in the area, this work presents a study of the history and organisation of Jimma under its most powerful ruler, Abba Jifar II (1878-1932), stressing the political history and structure of Jimma with a comparative perspective which notes similarities and differences in processes and structures to monarchical systems elsewhere in Africa and the world.

A signal feature of legal

and political institutions is that they exercise coercive power. The essays in this volume examine institutional coercion with the aim of trying to understand its nature, justification and limits. Included are essays that take a fresh look at perennial questions. Leading scholars from philosophy, political science and law examine these and related questions shedding new light on an apparently inescapable feature of political and legal life: Coercion.

It is summer in Jeddah but Naser's life seems bleak.

An immigrant in an unfriendly land, his friends have fled town for cooler climes and left him to his dead-end job and the scrutiny of the religious police, who keep watch through the shaded windows of their government jeeps. He spends his time writing to his mother in Africa and yearning to meet a woman - but in a country that separates men and

women with walls and veils he feels increasingly trapped. Then, one of the black-clad women drops a piece of paper at his feet, instructing him to follow her pink shoes and suddenly his black-and-white life blooms into colour. But relationships between unmarried men and women are illegal under the strict Wahhibism of Saudi state rule - and it's not long before their forbidden love must face the hardest test of all...  
[The Lasting Struggle for Freedom in Eritrea](#) ILRI

(aka ILCA and ILRAD)  
 This is the first complete English translation of Bealu Girma's classic. Originally published in 1983 in Ethiopia, the novel served as a critical account of the Red Star Campaign, the Communist Derg government's attempt at a final comprehensive victory over the secessionist rebellion in Eritrea. A passionate and turbulent story of love and war, Oromay mocked high-level members of Ethiopia's communist regime and criticized the

Derg's actions in Eritrea. The criticism contained in this incisive political allegory put Bealu in considerable danger owing to the repressive environment in which it was published. The novel was almost immediately banned after publication. Government officials attempted to confiscate all available copies but bootleg versions continued to circulate. In the aftermath, Bealu was fired from his job in Ethiopia's Ministry of Information and a few months later disappeared.

It is generally believed that he was abducted and killed on the orders of government officials in retaliation for Oromay. Bealu's life had a dramatic arc of its own. Born in rural Ethiopia to an Ethiopian mother and Indian father, he was a graduate of Addis Ababa University and later studied journalism in the United States. In addition to serving as editor of several of Ethiopia's most respected magazines and newspapers (including Addis Zemen and The Ethiopian Herald) he also

worked as a civil servant in Ethiopia's Ministry of Information. This position allowed him access to government officials during both the Imperial and Communist governments. Prior to Oromay, he wrote five other popular and critically-acclaimed Amharic-language novels: *Beyond the Horizon*, *The Bell of Conscience*, *The Call of the Red Star*, *Haddis*, and *The Author*. His integrity as a journalist, courageous criticism of repressive regimes, and martyrdom

to the cause of literary freedom make him a significant figure in modern Ethiopian history and Amharic literature. *Routledge Handbook of African Literature* ILRI (aka ILCA and ILRAD) A lively historical account of the rise of Ethiopia's student movement by one of those involved, its role in overthrowing the imperial regime, and its impact on the shaping of the country's future. BR> *National and Class Conflict in the Horn of Africa* A&C Black This book covers many of

the recent research observations on the management and use of working animals in tropical agricultural systems. Studies of oxen, donkeys and camels in sub-Saharan Africa, cows and donkeys in Ethiopia, buffaloes in Vietnam, camels in Libya and horses and donkeys in Southern Italy are some of the topics included. Technical issues in nutritional requirement, feeding, management, health, implement, work practices and harnessing are discussed and the

contribution that working animals continue to make in many agricultural and transport activities are quantified. The book is a valuable source of reference materials on draught animal technology. It is a must for any scientist, student or extension worker in rural and urban areas where animal power is found.

Regional Security in the Post-Cold War Horn of Africa African Books Collective

This book explores the rise and impact of violent

non-state actors in contemporary Africa and the implications for the sovereignty and security of African states. Each chapter tackles a unique angle on violent organizations on the continent with the view of highlighting the conditions that lead to the rise and radicalization of these groups. The chapters further examine the ways in which governments have responded to the challenge and the national, regional and international strategies that they have adopted as

a result. Chapter contributors to this volume examine the emergence of Islamist terrorists in Nigeria, Mali and Libya; rebels in DR Congo, Central African Republic, Ethiopia and Rwanda; and warlords and pirates in Somalia, Uganda and Sierra Leone. Oromo Democracy W. W. Norton & Company Analyzes the role of intellectuals and students in Ethiopian state power before and after the Italian Occupation (1936-1941). *Farm Animal Biodiversity*

*in Ethiopia* Springer Science & Business Media If modernism initially came to Africa through colonial contact, what does Ethiopia's inimitable historical condition—its independence save for five years under Italian occupation—mean for its own modernist tradition? In *Modernist Art in Ethiopia*—the first book-length study of the topic—Elizabeth W. Giorgis recognizes that her home country's supposed singularity, particularly as it pertains to its history from 1900 to

the present, cannot be conceived outside the broader colonial legacy. She uses the evolution of modernist art in Ethiopia to open up the intellectual, cultural, and political histories of it in a pan-African context. Giorgis explores the varied precedents of the country's political and intellectual history to understand the ways in which the import and range of visual narratives were mediated across different moments, and to reveal the conditions that account for the

extraordinary dynamism of the visual arts in Ethiopia. In locating its arguments at the intersection of visual culture and literary and performance studies, *Modernist Art in Ethiopia* details how innovations in visual art intersected with shifts in philosophical and ideological narratives of modernity. The result is profoundly innovative work—a bold intellectual, cultural, and political history of Ethiopia, with art as its centerpiece. [Documenting the Ethiopian Student](#)

A beguiling exploration of the joys of reading across boundaries, inspired by the author's year-long journey through a book from every country. Ann Morgan writes in the opening of this delightful book, "I glanced up at my bookshelves, the proud record of more than twenty years of reading, and found a host of English and North American greats starting down at me...I had barely touched a work by a

foreign language author in years...The awful truth dawned. I was a literary xenophobe." Prompted to read a book translated into English from each of the world's 195 UN-recognized countries (plus Taiwan and one extra), Ann sought out classics, folktales, current favorites and commercial triumphs, novels, short stories, memoirs, and countless mixtures of all these things. The world between two covers, the world to which Ann introduces us with affection and no small measure of wit, is a

world rich in the kind of narratives that engage us passionately: we meet an irreverent junk food-obsessed heroine in Kuwait, an explorer from Togo who spent years among the Inuit in Greenland, and a former child circus performer of Roma background seeking sanctuary in Switzerland. Ann's quest explores issues that affect us all: personal, political, national, and global. What is cultural heritage? How do we define national identity? Is it possible to overcome censorship and

propaganda? And, above all, why and how should we read from other cultures, languages, and traditions? Illuminating and inspiring, *The World Between Two Covers* welcomes us into the global community of stories.

"This book reveals the many creative solutions an African society found for problems that people encounter when they try to establish a democratic system of governing their affairs. In much of what has been written about Africa ... Little is ever shown of indigenous African democratic systems, under which there is distribution of authority and responsibility across various strata of society, and where warriors are subordinated to

deliberative assemblies, customary laws are revised periodically by a national convention, and elected leaders are limited to a single eight-year terms of office and subjected to public review in the middle of their term. All these ideals and more are enshrined in the five-century old constitution of the Oromo of Ethiopia, which is the subject matter of this book. In this book, Legesse brings into sharp focus the polycephalous or "multi-headed" system of government of the

Oromo, which is based on clearly defined division of labor and checks and balances between different institutions. Revealing the inherent dynamism and sophistication of this indigenous African political system, Legasse also shows in clear and lucid language that the system has had a long and distinguished history, during which the institutions changed by deliberate legislation, and evolved and adapted with time."--Amazon.com.

Although asserting one's ethnic identity is not morally wrong, the manner in which one ethnic group construes or relates to the ethnic other(s) can obliterate the bond of togetherness and create the insecurity of life. Ethiopia, which is home to anthropologically diverse ethno-linguistic groups, exhibits a proclivity to ethnic-based hostilities and conflicts. As a result of such hostilities, Ethiopia had suffered

recurrent small- and large-scale deaths, and in the last half decade only millions have been internally displaced and live in dire conditions. In dialogue with perspectives from a wide range of disciplines such as history, law, sociology, philosophy, theology, and political thought, this multi-authored book aims at generating Christian moral resources for peaceful multiethnic togetherness. This interdisciplinary engagement is meant to buttress the task of

interpreting ethnic diversity and national unity within both contemporary and historical Ethiopia, and articulating a Christian moral response to the crisis of togetherness ensuing from the malpractices of affirming ethnic identity and enacting national unity. **Mood Mapping** New York : Free Press

“A candid, inspiring memoir of cultural and historical importance” from an Eritrean-Ethiopian War refugee (Michael Bloomberg). Dawit Gebremichael Habte fled his homeland of Eritrea as a teenager. In the midst of the ongoing Eritrean-Ethiopian war, Dawit and his sisters crossed illegally into Kenya. Without their parents or documents to help their passage, they experienced the abuse and neglect known by so many refugees around the

world. But Dawit refused to give up. He stayed resilient and positive. Journeying to the United States under asylum—and still a boy—Dawit found a new purpose in an unfamiliar land. Against impossible odds, he studied hard and was accepted to Johns Hopkins University, eventually landing a job as a software engineer at Bloomberg. After a few years, with the support of Michael Bloomberg himself, Dawit returned to his homeland to offer business opportunities for

other Eritreans. Dawit found a way to help his ancestral land emerge from thirty years of debilitating war. Gratitude in Low Voices is about how one man was marginalized, but how compassion and love never abandoned him. It’s about learning how to care for family, and how to honor those who help the helpless. This account reminds us that hope is not lost. “An inspiring memoir by Dawit Gebremichael Habte, who poignantly portrays his childhood in Africa and his

struggles as a refugee to the United States . . . This book is a reaffirmation of the good that people can do and how one young man succeeded despite the odds against him.”—Foreword Reviews
