Paper crafters will warmly  
welcome this first-of-its  
kind volume, which  
presents the richness and  
variety of a newly popular  
technique. Whether it's

used in scrapbooks or on handmade cards, for decorative effects or functional bindings, stitched paper is found everywhere these days. The spectacular results are unique and impossible to achieve with just glue or folding. Explore a cornucopia of different papers and threads. Follow the clever tips for preventing delicate papers from tearing and for machine-stitching around curves. Best of all, you can create a beautiful baby mobile; a "family tree" to frame; and a "slipcover" for a bud vase. A Selection of the Crafters Choice Book Club.

Penguin  
*Good Design is Good Feng Shui In Creating Change*, Laura Morris unites modern interior design and creativity with ancient Feng Shui principles to create an easy-to-use handbook for bringing more energy into your home and life. Intentional design is about mindfully creating: using your hands to design your space with the ancient and powerful tradition of Feng Shui. Morris offers a "learn-by-doing" approach, introducing you to the basic principles of Feng Shui as you apply them through 27 easy-to-implement design projects, including dressing up your bathroom, styling your bookcase, balancing your kitchen, and more! "Feng shui is an incredibly transformative philosophy with the power to focus intention, heal in various ways and create tremendous shifts in your life. With ease, patience and knowledge, Laura opens the magical door to these ancient teachings, bringing their healing and balancing power to everyone interested. She offers practical, easy-to-comprehend feng shui applications for all levels." --Anjie Cho, author of *108 Ways to Create Holistic*

Spaces. "Laura Morris + Feng Shui = Magic. Anybody of any age can understand the simple and useful tools of this ancient principal just by reading a few pages of this masterfully curated book. A must read, must do book for sure!" -- Tiffany Pratt, author of *This Can Beautiful*. "Creating Change is the perfect book for those of us who are intrigued by how Feng Shui can bring more life to our spaces, but too busy to become experts. Laura's simple, learn-as-you-go approach makes it easy--and fun--to start using Feng Shui immediately in your own home, space, and life." -- Joan Sheridan LaBarge, publisher, Working Mother Media.

**Kids Coloring Pages: A Fun Valentine Coloring Book of Cute Little Animal, Hearts, Cupid and More** Sterling Publishing Company, Inc. The Snail Soup Can Decoy to keep the candy stash safe. The Customizable "Keep Out" Sign to deter meddlesome siblings and parents. A Bunk Bed Communicator made from cardboard tubes ("Psst! Can you keep the snoring down?"). Clever, whimsical, and kind of

genius, here are 67 unique projects that will turn any dad with DIY leanings into a mad scientist hero that his kid(s) will adore. No screens, no hi-tech gadgetry. Made by Dad combines the rough-edged, handmade ethos of a Boy Scout manual or *The Dangerous Book for Boys* with a sly sense of humor that kids love. Scott Bedford, a creative director by day and Webby Award-winning blogger by nights and weekends, wields an X-ACTO knife, magic marker, and prodigious imagination to create endlessly delightful projects for his two sons. He knows that kids like contraptions and gadgets, things that are surprising—a chair that appears to be balanced on eggshells. Things that are complex—a multilevel city, with buildings, tunnels, and roads, built from old boxes around the legs of a table. And especially things with humor—the Snappy Toast Rack, made to resemble a crocodile's gaping mouth. The projects are shown in full-color photographs, and the instructions are illustrated in detailed line drawings that exude personality. Some are quick and simple enough

to be done in a coffee shop; others are more of an afternoon project—yielding hours and hours of rich, imaginative playtime.

*The Texas Outlook* Independently Published In this bestselling modern

classic, a young boy's lost mitten leads to a charming snowy adventure. Jan Brett's beautiful retelling makes a perfect holiday gift. When Nicki drops his white mitten in the snow, he goes on without realizing that it is missing. One by one, woodland animals find it and crawl in; first, a curious mole, then a rabbit, a badger and others, each one larger than the last. Finally, a big brown bear is followed in by a tiny brown mouse and what happens next makes for a wonderfully funny climax. As the story of the animals in the mitten unfolds, the reader can see Nicki in the borders of each page, walking through the woods unaware of what is going on. In her distinctive style, Jan Brett brings the animals to life with warmth and humor, and her illustrations are full of visual delights and details faithful to the Ukrainian tradition from which the story comes. Jan Brett is also the creator of such wintery classics as *The Hat*, *The Snowy Nap*, *Three Snowy Bears*, *The Animal's Santa*, and *The Night Before Christmas*. This book is also available in Spanish, as *El mitón*. *Wild Animals Stained*

*Glass Coloring Book* Createspace Independent Publishing Platform View the animal kingdom up close as never before in this breathtaking title, which has already sold over 1.5 million copies. Written by 70 specialists, it features stunning wildlife photography of more than 2000 of the world's most important wild mammals, birds, reptiles, amphibians, and insects. With around two million species identified to date, animals are the dominant and most varied form of life on the planet. Animal presents a representative selection, ranging from the giant baleen whale, to fast-moving predators such as sharks, big cats, and birds of prey, as well as microscopic beetles barely 1mm long and other insects. It presents some of the latest species to be described: meet the cute but elusive olinguito from South America, which was only identified in 2013, or the skywalker hoolock gibbon that was named after a Star Wars character in 2017. Animal also explains how the earth's biodiversity is in sharp decline and the conservation projects underway to safeguard precious species. For each one, it gives a locator

map and statistics, including its conservation status. For anyone who wants a reliable and enthralling reference, in which you can find the answers to everything - from why zebras are striped or how the sunbear got its name - Animal is your essential one-stop guide.
