The struggle between the rural working class and the upper crust intensifies in this turning-point novel of the Darby Chronicles as Freddy Elman, son of the town trash collector, and Lilith Salmon, daughter of a prestigious family, embark on their ill-fated love affair. Seeing Darby through new eyes, Freddy comes to realize that "the kind of people who hunkered down among these tree-infested, rock-strewn hills" is "dying out, replaced by people with money, education, culture, people 'wise in the ways of the world.'" As that world increasingly

intervenes, the lovers' attempt to bridge the chasm that divides their class-alienated families inevitably collapses in Hebert's tragic tale that echoes Shakespeare's Romeo and Juliet. This is a book for anyone interested in local politics, privilege, and poverty, all embedded in a story of love and death in the woods and on the ledges of the Granite State.

Tom Wilczewski was stricken with polio in August of 1949, two months before his fifth birthday. He was confined to an iron lung for over one year. In 1963 he graduated from A. Harry Moore High School, in Jersey City, New Jersey. After graduation he

sought employment. It was a time when accessibility for the disabled was not part of societies concerns. He was given many excuses why he could not be hired. The underlying factor was he sat in a wheelchair. After much disappointment in seeking employment he started an engraving business with his brother Ed which they successfully operated for over thirty five years. November 27, 1984, was cold and dreary. On that day the life that Tom knew came to a screeching halt. An unscrupulous and incompetent construction crew that had been building a condominium next to his house had undermined the foundation of the home and his business. The

family home and Toms business were destroyed. Tom in his wheelchair with his brother Ed and their nearly blind father barely escaped being trapped in the crumbling red brick dwelling. The Wilczewski family fought their way back from this devastating blow---Tom with his brother Ed started their business over again at another location in their downtown neighborhood. The high point in Toms life was marrying Antoinette who was equally accomplished and like Tom had polio. *Against the Fires of Hell* Lulu.com

Peter A. Luber's second novel explores the abyss that looms just a few missteps off every traveler's path. *Party Line* peers into its darkness over the shoulders of seven uniquely linked, often troubled, and occasionally heroic souls. Despite their variety of

personality and routes taken toward despair, the seven share an opportunity to tiptoe clear of a long, dark fall, provided they forget themselves and work together toward real peace. *Party Line* portrays these penultimate moments by looking out from within each character, through their dreams. Each chapter is a disturbingly familiar leap into the nightly journeys of Lou, Alice, and five other people. The splash of their adventures both transcends their mundane daily lives and provides adventure and symbolic experience that cannot be found anywhere else. *Party Line* can be read from page one as a narrative (best done in one sitting, which may happen), but also can be opened randomly for a very different reading experience.

THE CAR - Bentley serial number SM 3912 was a Phillips bodied two-seat DHC on a supercharged 4.5 litre chassis. The facts are clear. It was bought new by Lord Brougham & Vaux. And it was last heard of in 1939. THE DISAPPEARANCE -Stephan Sidlow, senior member of the Air Raid Prevention Corps, sworn to protect England, acquires Blower SM 3912 just as Britain comes under attack from Germany. He undoubtedly uses the Blower for good to cross the island nation at break neck speed and shore up her defenses.

But as the war progresses, Stephan and the Blower might actually be some of England's most dangerous adversaries.

THE HUNT - When new information regarding SM 3912 comes to light, automotive archaeologist Faston Hanks is cajoled off vacation and onto the case of finding the missing Blower Bentley. The Blower proves elusive and the hunt goes on for years. Until millions of dollars are on the line and Faston needs to find SM 3912 to foil one of the boldest crimes ever attempted in the rarified

world of high-end car collectors. Bringing to life the final moments of the Blower in 1944 and the present day attempt to find it, Hunt for the Blower Bentley richly imagines the fate of the only one of the fifty Blower Bentleys built that is unaccounted for. There is no other character in fiction like Faston Hanks. If you love cars and history, you'll find Faston an engaging person to spend time with. And you will definitely find yourself wishing to be at his side as he tracks down the world's most desirable cars.

### Too Much Rain

The true-crime story of a Massachusetts nurse with a dark secret, by the New York Times bestselling author of *The Girl Left Behind*. At the Veterans Affairs Medical Center in Northampton, Massachusetts, Kristen Gilbert was known as a hardworking, dedicated nurse. Yet so many emergencies and sudden deaths occurred under Kristen's watch that others jokingly called her the "Angel of Death." No one suspected the horrifying truth: that over the course of six months, Gilbert had caused the deaths of as many as forty patients. With new insight into the sociopathic mindset of nurses who kill, and the latest details on Gilbert's ongoing prison sentence, M. William Phelps exposes how one person's good intentions went so chillingly, killingly wrong . . . Praise for *Perfect Poison* "True crime at its best—compelling, gripping, an edge-of-the-seat thriller. Phelps packs wallops of delight with his skillful ability to narrate a suspenseful story."
