Most countries have a variety of climates and soils to grow horticultural crops, providing sufficient opportunities for the expansion of the fruit sector, however the biggest challenge presently is to produce enough fruits to meet the needs of the growing population. This volume discusses the technologies applied for effective use of resources in order to obtain higher yield per investment unit with high-quality yields in a short time. In today's open economy era; in the domestic and international markets, quality fruit products are becoming more and more necessary to remain competitive. This is

only possible through the deployment of high-tech applications and precision farming methods. Fruits are important to people and also play a crucial role in religious customs, mythology and artwork. They are not just delicious, but also contain many nutrients vital for human health. Fruit production needs a lot of scientific knowledge and basic understanding to be successful. The volume compiles various topics in fruit production technology, such as layout and planting, different cultural customs, development and reproductive traits of fruit crops, and infertility. Some of the topics discussed include chapter 1: introduction to fruit crop production, chapter 2: classification of fruits, chapter 3: importance of fruit production, and chapter 4: planting systems and transplanting of fruit trees among others. The volume is useful to growers, nursery keepers, farmers, teachers, researchers, extension workers, and anyone who wants to be familiar with fruit farming technology.

Psycho means Mind and Symbology means Communication via

pictures. Psychosymbology teaches you how to contact the part of your brain which contains all the secrets. Especially, we people often use only our left brain.

The left side brain is very linear and rational. The right side brain is used very little by us and the scientists are very much astonished by this fact of right brain activities. The right side brain has become the treasure of knowledge and creativeness. Normal human use their 5 - 10% of brain and Genius use their 15 - 20 % by this concept of brain usage researchers wanted to know the benefits dreams and deep sense of its powers.

Right brain powers are unbelievable. Most of the time, all People just use their Left Brain only. Very few people only know the secret of using Right brain but that's not a very big secret to follow. Just some simple

practices to follow in our daily life. One can achieve any kind of thing by using their Right Brain. There are some symbols and colours to activate our Right brain. By using these kinds of techniques one can easily achieve the highest level in their life. It is the language of brain, it's easy to learn, easy to use, and easy to develop the greatest source of human psychic power ever discovered by man. The right part of brain is a vast and boundless sea of knowledge, wisdom, and potential. It remains untapped because people try to communicate with it through the use of words. But the sub-conscious does not understand words. Practicing Psychosymbology is easy; you have to concentrate on a specific symbol according to your need. By gazing at a symbol you are permitting your sub-conscious mind (right brain) to respond to that stimulus in its own way, with out dictating your desire, need or wish, you leave every thing for the higher forces.
