Supercar Revolution charts the evolution of the battle for performance and supremacy among the world's leading marques, including Ferrari, Lamborghini, Bugatti, Porsche, Aston Martin, and Ford GT. If you want to get to know the ins and outs of the high-budget, near space-age vehicles we call supercars, then you need look no further. Supercar Revolution profiles the designers and engineers who developed these beasts, and includes interviews with the racers and celebrities who drive them. And that's not to mention the fabulous photographs of the supercars themselves you'll find throughout this highly produced volume. Jay Leno, the host of Jay Leno's Garage and one of the best-known automotive collectors and enthusiasts in the world, is also featured in several hilarious and informative commentaries. You'll love his many stories and be informed by his opinions on these incredible cars (many of which he owns). Supercar Revolution conveys the power of automotive aesthetics and performance as they're pushed to their absolute limits like you've never seen before. It is a new benchmark in automotive publishing, and is destined to become a classic history of these incredible marques.

The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

"Porsche: Excellence Was Expected explores the history of the Porsche company, its cars, and its motor racing heritage from its beginning in 1948 through its sixty years as an independent family-owned car company to its continued success in 2019 under the auspices of the Volkswagen Group. Author Karl Ludvigsen goes behind the scenes to explore the events that eventually plunged Porsche into the hands of Volkswagen. And he outlines in detail just how and why, after the final schism from the Porsche/Piech dynasty in 2012, Porsche has continued to be Porsche. New material for the 2019 edition includes the continuing evolution of the iconic Porsche 911, allocating five chapters to dissecting the design and engineering of the Type 991 production cars and GT racers. He also looks at the continuing market success of the Cayenne, Cayman, Macan and Panamera. Competition coverage is expanded to include the exotic 918 hybrid and the winning 919 Hybrid LMP1 racer. A final chapter on Porsche's high-performance, all-electric Taycan production car points the way to the iconic sports-car maker's future."--Provided by publisher.

St. James Modern Masterpieces Krause Publications

The introduction of the Porsche 901 in 1963 marked a milestone in automotive history. Although the name later had to be changed because Peugeot had patented having a 0 in the middle of car model numbers, the 911 didn't let anything stand in the way of its becoming an iconic sports car. This success story spans all the way from the 901 and the Carrera RS 2.7 (which with its characteristic rear spoiler--the so-called "ducktail"--was the fastest production car of its time) right up to the current generation of the 991. For the 50th birthday of the populous 911 family, the famous automotive photographer Rene Staud, whose *The Mercedes-Benz 300 SL Book* has also been published by teNeues, showcases the most important models--all in his typically radiant and distinctive style.
