A Specter is Haunting Europe Watson-Guptill

Carroll Borland is the legendary star of early cinema, who's portrayal of "Luna" opposite Bela Lugosi in *Mark of the Vampire* (1935) indelibly etched in the minds of moviegoers the look, the style, and the sexuality of female vampires for generations to come. How did Bela Lugosi inspire the writing of the legendary sequel to Bram Stoker's *Dracula*? What was the true story behind the infamous incest scene rumored to have been cut from *Mark of the Vampire* starring Carroll and Bela? Was Carroll Borland visited by the ghost of Bela Lugosi? What was the secret of their relationship? Learn the answers in Gregory Mank's compelling account of Carroll's life and film career.

Dracula's Guest, and Other Weird Stories
University Press of America

In 1931 Universal Pictures released *Dracula* and *Frankenstein*, two films that inaugurated the horror genre in Hollywood cinema. These films appeared directly on the heels of Hollywood's transition to sound film. *Uncanny Bodies*

argues that the coming of sound inspired more in these massively influential horror movies than screams, creaking doors, and howling wolves. A close examination of the historical reception of films of the transition period reveals that sound films could seem to their earliest viewers unreal and ghostly. By comparing this audience impression to the first sound horror films, Robert Spadoni makes a case for understanding film viewing as a force that can powerfully shape both the minutest aspects of individual films and the broadest sweep of film production trends, and for seeing aftereffects of the temporary weirdness of sound film deeply etched in the basic character of one of our most enduring film genres.

Kings of Darkness - The Dracula's Legacy Saga (Volume 2) Lampi di stampa

Slithering upon the heels of Dark Horse's archive collections of the seminal horror comics magazine *Creepy* comes its terror-filled cousin publication *Eerie!* Collected for fans for the first time ever, and packaged in the same amazing oversized format as the *Creepy Archives*, Dark Horse Comics has taken great, gruesome care in presenting this groundbreaking material to readers who have been waiting decades to get their

claws on it.

Eerie Archives John Murray

And the Devil's Heart, and many more terrors, await across the centuries in tales from the vampire's past!

GOODNIGHT DRACULA Marvel Entertainment

William F. "Buffalo Bill" Cody was the most famous American of his age. He claimed to have worked for the Pony Express when only a boy and to have scouted for General George Custer. But what was his real story? And how did a frontiersman become a worldwide celebrity? In this prize-winning biography, acclaimed author Louis S. Warren explains not only how Cody exaggerated his real experience as an army scout and buffalo hunter, but also how that experience inspired him to create the gigantic, traveling spectacle known as Buffalo Bill's Wild West Show. A dazzling mix of Indians, cowboys, and vaqueros, they performed on two continents for three decades, offering a surprisingly modern view of the United

States and a remarkably democratic version of its history. This definitive biography reveals the genius of America's greatest showman, and the startling history of the American West that drove him and his performers to the world stage.

The Vampire Book Abrams

Having discovered the double identity of the wealthy Transylvanian nobleman, Count Dracula, a small group of people vow to rid the world of the evil vampire.

Many Americans and Europeans have for centuries viewed Russia as a despotic country in which people are inclined to accept suffering and oppression. What are the origins of this stereotype of Russia as a society fundamentally apart from nations in the West, and how accurate is it? In the first book devoted to answering these questions, Marshall T. Poe traces the roots of today's perception of Russia and its people to the eyewitness descriptions of sixteenth- and seventeenth-century European travelers. His fascinating account—the most complete review of early modern European writings about Russia ever undertaken—explores how the image of "Russian tyranny" took hold in the popular imagination and eventually became the basis for the notion of "Oriental Despotism" first set forth by Montesquieu. Poe, the preeminent scholar of these valuable primary sources, carefully assesses their reliability. He argues convincingly that although the foreigners exaggerated the degree of Russian "slavery," they accurately described their encounters and correctly concluded that the political culture of Muscovite autocracy was unlike that of European kingship. With his findings, Poe challenges the notion that all Europeans projected their own

fantasies onto Russia. Instead, his evidence suggests that many early travelers produced, in essence, reliable ethnographies, not works of exotic "Orientalism."

Cross and wooden stake in hand, Dr. Gary D. Rhodes re-enters the sepulcher of supernatural cinema, casting his lantern's light on Universal's 1936 classic *Dracula's Daughter*. With fellow tomb raiders Tom Weaver and Michael Lee, he discovers long-forgotten lore, presented herein with the film's original shooting script, pressbook and a large array of other freshly exhumed extras. "A comprehensive tribute to one of Hollywood's classic horror films. My grandmother, Gloria Holden, was a legend in her time, and would have been so very proud." - Laurie Holden, costar of *The Walking Dead* "As he always does (better than anyone), Gary D. Rhodes chronicles the convoluted history of the film (how the budget grew while still having the look of a "B" film; how Bela Lugosi came and went in the cast - but still had to be paid), and why it took two years to finally get produced. Bravo, Gary. There is a reason your film scholarship is lauded everywhere. *Dracula's Daughter* is another feather in your cap!" - Richard Klemensen, editor of *Little Shoppe of Horrors* magazine "Rhodes' coverage of this classic production and the endless minutiae with which he showers readers and fans are a credit to this book yet typical of Rhodes' acumen as a film scholar historian. His attention to detail opens floodgates for scholars and academics engaged in theory who rely on the sort of archival work that Rhodes makes appear effortless. Buy two copies of this volume - for one the shelf, and the other

for notations, research, dog-earing, and pleasure-reading." - John Edgar Browning, Ph.D., coauthor of *Dracula in Visual Media* and editor of *The Forgotten Writings of Bram Stoker* "Everything you could possibly want to know about the making of *Dracula's Daughter*, and the long process that led to its production, can be found in this definitive volume. Rhodes provides a fascinating account of how the seemingly obvious idea of a sequel to *Dracula* became a drawn-out process. It involved changing regimes at Universal Pictures, several top screenwriters, and Bela Lugosi, who at one time was set to appear in the film. Tom Weaver adds pages of trivia notes—some less trivial than others—and Michael Lee contributes an erudite discussion of the music score and its evolution. The book also includes several unused treatments (by John L. Balderston, Kurt Neumann, and R.C. Sheriff), a facsimile of Zacherle's television send-up of the picture, and much of the original Universal pressbook. This is a cornucopia of goodies for any horror movie buff. The highest compliment I can offer is that it made me want to watch *Dracula's Daughter* again...which I intend to do." - Leonard Maltin "The Scripts from the Crypt gang strikes again with another exhaustively researched, generously illustrated and entertainingly written winner." - VideoScope Holy flashback - where are my Garbage Pail Kids and Nintendo? I felt like it was 1990 all over again when I received the newest book in BearManor's Scripts from the Crypt series and it turned out to be *Dracula's Daughter* (BearManor Media, hardcover \$34.95 / softcover \$24.95). The reason for my flashback: To date, the Scripts from the Crypt series has concentrated on 1950s schlock (*The Hideous Sun*

Demon, Indestructible Man, Bride of the Gorilla, Bride of the Monster, more), so holding a new volume on a classic 1930s Universal gave me a déjà vu moment: I was back in the late 80s-early 90s when individual books on the monster flicks of Universal's Golden Age were being cranked out hot and heavy (cold and clammy?) by MagicImage author Gregory Mank. *Dracula's Daughter* wasn't part of the MagicImage collection, but now that gap has been filled by Gary D. Rhodes. His 42-page essay on the making of this movie begins by charting the history of some of the vampire (and "vamp") movies of the silent era and then tackles the convoluted story of the on-again off-again process of planning and making *Dracula's Daughter*. Multiple writers, multiple scripts, multiple directors (including James Whale) attached to the project, Bela Lugosi coming and going from the proposed cast, the 1930s Horror Ban looming, Universal on the verge of being sold – the tale is as intricate as one of Castle Dracula's most ornate spider webs, but Rhodes slow-walks us through it and backs everything up with quotes from Universal memos, trade paper announcements, etc. A premier horror historian, Rhodes is in good form here, as always. Scripts from the Crypt curator Tom Weaver weighs in with 29 pages of "Fun Facts," each item separated by clip art of a bat. Many are interesting, some are arcane (the make and model of the foreign car driven by Marguerite Churchill's character!). The best part might be a series of factoids about Gloria Holden, who plays the title role. It appears that the lady was quite age-conscious: She had a son in the early 1920s but in later years, apparently embarrassed by this giveaway as to her age, passed him off in Hollywood as her

brother! In the 40s, she married a man young enough to BE her son (he died only a few years ago), and may have kept her true age from him. Holden lied about her age her whole long life and even afterwards: On her grave marker, her birth year is 1917 (which would make her a teenager in *Dracula's Daughter*). That's shaving off quite a number of years, as she was actually born around the turn of the twentieth century. Some of my favorite photos are in the "Fun Facts" part of the book, including a delightful one of Nan Grey – no, not as *Dracula's Daughter's* victim Lili, but one taken in 1969, decades after her retirement from the screen. In it, she's shooting pool with husband Frankie Laine. The reproduced script has a few pages missing (Rhodes acknowledges this), but we get compensation in the form of short sections of early scripts that are nothing like the eventual movie. One, rather gory and daring for its day, even features Dracula (the role that, of course, Lugosi would have played). The everything-plus-the-kitchen-sink treatment continues with a chapter on the music, the pressbook, a 1953 treatment titled *Carmilla* (it would have been Universal's second "lady vampire" movie—and Marlene Dietrich was considered for the lead) – even the script that John Zacherle used on the night in 1958 when Philadelphia's WCAU-TV ran *Dracula's Daughter* with Zacherle horror-hosting. At about 350 pages (perhaps the thickest Scripts from the Crypt book yet), *Dracula's Daughter* tells you everything you ever wanted to know and lots that you didn't know that you wanted to know. (William Holden, nee Bill Beadle, was named after Gloria Holden??) BearManor previously (2009) published a thoroughly dispensable book on

Dracula's Daughter so remember when ordering this one to specify that you want the Gary D. Rhodes Scripts from the Crypt book. You're in for a bloody good time. -- -- Classic Images
A People Born to Slavery" BearManor Media

Sequel to Heart's Triumph Blackstone Manor is complete, and what better way to celebrate than a Halloween party? At least, that's how Io sees it. He's already splurged on candy and decorations. Cinder isn't entirely on board, however, hating the look of disappointment on Io's face when he nixes the idea. Yet somehow Io gets his way, and the party goes ahead as planned. It can't be all that bad, right? But throw in couples' costumes, Daisy acting weird, real ghosts, and the secret Cinder has been harboring from Io, and it's sure to be a night none of them forget.

How to Draw Chiller Monsters, Werewolves, Vampires, and Zombies Sovera Edizioni

Collecting the six-issue series in one volume, along with a complete cover gallery featuring art by Joe Linsner. Spinning out of Alan Moore's retelling of the ageless horror classic, Dracula has come to America to play out his timeless narrative in this brave, New World. Only he didn't realize ANOTHER vampire already beat him to it. Drawn to one another across continents and centuries by a mysterious force, both Vampirella and Bram Stoker's immortal monster find themselves sucked into a time-tossed epic of love, hate, death, and damnation. But can an epic built for one vampire possibly hold them both?

An unmissable collection of eight unconventional and captivating short stories for young adult and adult intermediate learners of Italian. Olly's

top-notch language-learning insights are right in line with the best of what we know from neuroscience and cognitive psychology about how to learn effectively. I love his work - and you will too! - Barbara Oakley, PhD, Author of New York Times bestseller *A Mind for Numbers* Short Stories in Italian for Intermediate Learners has been written specifically for students from a low-intermediate to intermediate level, designed to give a sense of achievement, and most importantly - enjoyment! Mapped to B1-B2 of the Common European Framework of Reference, these eight captivating stories will both entertain you, and give you a feeling of progress when reading. What does this book give you? · Eight stories in a variety of exciting genres, from science fiction and crime to history and thriller - making reading fun, while you learn a wide range of new vocabulary · Controlled language at your level to help you progress confidently · Realistic spoken dialogues to help you learn conversational expressions and improve your speaking ability · Beautiful illustrations accompanying each story, to set the scene and support your understanding · Accessible grammar so you learn new structures naturally, in a stress-free way · Pleasure! Research shows that if you're enjoying reading in a foreign language, you won't experience the usual feelings of frustration - 'It's too hard!' 'I don't understand!' With intriguing plots that will spark your imagination and keep you reading, Short Stories in Italian will take your grasp of Italian to the next level with key features to support and consolidate your progress, including: · A glossary for bolded words in each text · A bilingual word list · Full plot summary · Comprehension questions after each

chapter. As a result, you will be able to focus on enjoying reading, delighting in your improved range of vocabulary and grasp of the language all without ever feeling overwhelmed. From science fiction to fantasy, to crime and thrillers, *Short Stories in Italian for Intermediate Learners* uses reading as the perfect tool to not only delight in learning Italian, but to accelerate your journey towards fluency.

Il romanzo di Bram Stoker, alla fonte di numerose rivisitazioni cinematografiche e ispiratore di molte reinterpretazioni letterarie, è qui offerto nella traduzione firmata da Adriana Pellegrini.

[The Roots of Balkanization](#) Dark Horse Comics

Writing and running software is now as much a part of science as telescopes and test tubes, but most researchers are never taught how to do either well. As a result, it takes them longer to accomplish simple tasks than it should, and it is harder for them to share their work with others than it needs to be. This book introduces the concepts, tools, and skills that researchers need to get more done in less time and with less pain. Based on the practical experiences of its authors, who collectively have spent several decades teaching software skills to scientists, it covers everything graduate-level researchers need to automate their workflows, collaborate with colleagues, ensure that their results are trustworthy, and publish what they have built so that others can build on it. The book assumes only a basic knowledge of Python as a starting point, and shows readers how it, the Unix shell, Git, Make, and related tools can give them more time to focus on the research they actually want to do. Research

Software Engineering with Python can be used as the main text in a one-semester course or for self-guided study. A running example shows how to organize a small research project step by step; over a hundred exercises give readers a chance to practice these skills themselves, while a glossary defining over two hundred terms will help readers find their way through the terminology. All of the material can be re-used under a Creative Commons license, and all royalties from sales of the book will be donated to The Carpentries, an organization that teaches foundational coding and data science skills to researchers worldwide.

Encyclopedia of Associations Vintage
Dracula's Guest and Other Weird Stories is a collection of short stories by Bram Stoker, first published in 1914, two years after Stoker's death. The same collection has been issued under short titles including simply *Dracula's Guest*. Meanwhile, collections published under *Dracula's Guest* and longer titles contain different selections of stories. Contents: *Dracula's guest* -- *The judge's house* -- *The squaw* -- *The secret of the growing gold* -- *The gipsy prophecy* -- *The coming of Abel Behenna* -- *The burial of the rats* -- *A dream of red hands* -- *Crooken sands*.

Nosferatu in the 21st Century Harry Ransom Humanities Research Center
 Departing from established structuralist or psychological approaches to the fantastic, Jos Monlecn offers an ideological reading of this literary product of mass culture. In an exploration of the origins and development of the fantastic, Monlecn traces the relation of reason to unreason in light of three distinct events that influenced capitalist thinking: the French Revolution, the uprisings of 1848, and

the Bolshevik Revolution. The fantastic, Monlecn argues, reflected social tensions and produced a cultural space in which to appropriate fears brought on by the revolutions--to tame the "specter" mentioned by Marx and Engels in The Communist Manifesto. At the same time the fantastic helped carve in Europe a defense of order through the introduction of unreason as a viable discourse. Monlecn pays particular attention to the development of the fantastic in Spain, whose unique economic and cultural conditions form a distinct background against which to test his paradigm for the development of the genre in the rest of Europe. This study touches upon a wide range of works, including those by Bcquer, BazNBn, Galdcs, Alarccn, Maupassant, Shelley, Poe, and James, as well as etchings by Goya. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Dracula ed io Random House Books for Young Readers

'Nosferatu' in the 21st Century is a celebration and a critical study of F. W. Murnau's seminal vampire film *Nosferatu, eine Symphonie des Grauens* on the 100th anniversary of its release in 1922. The movie remains a dark mirror to the troubled world we live in seeing it as striking and important in the 2020s as it

was a century ago. The unmistakable image of Count Orlok has traveled from his dilapidated castle in old world Transylvania into the futuristic depths of outerspace in Star Trek and beyond as the all-consuming shadow of the vampire spreads ever wider throughout contemporary popular culture. This innovative collection of essays, with a foreword by renowned Dracula expert Gary D. Rhodes, brings together experts in the field alongside creative artists to explore the ongoing impact of Murnau's groundbreaking movie as it has been adapted, reinterpreted, and recreated across multiple mediums from theatre, performance and film, to gaming, music and even drag. As such, 'Nosferatu' in the 21st Century is not only a timely and essential book about Murnau's film but also illuminates the times that produced it and the world it continues to influence.

Powers of Darkness Liverpool University Press

From movies to comics to graphic novels, monsters and their ilk tap into the terror that lurks in the darkest regions of the human collective unconscious. Enduringly popular characters, from vampires to zombies, provide an exciting challenge and appeal to comics and animation artists. *How to Draw Chiller Monsters, Werewolves, Vampires and Zombies* features the artwork of comic-book artist and Hollywood monster designer Kerry Gammill, Gene Colan as well as Neal Adams, Jim Steranko, Jack Davis, David Hartman, Frank Frazetta, Basil Gogos, and Wally Wood.

Dracula Dark Horse Comics

Since the publication of *Dracula* in 1897, Bram Stoker's original creation has been a source of inspiration for artists, writers, and filmmakers. From Universal's early black-and-white films and Hammer's

Technicolor representations that followed, iterations of Dracula have been cemented in mainstream cinema. This anthology investigates and explores the far larger body of work coming from sources beyond mainstream cinema reinventing Dracula. *Draculas, Vampires and Other Undead Forms* assembles provocative essays that examine Dracula films and their movement across borders of nationality, sexuality, ethnicity, gender, and genre since the 1920s. The essays analyze the complexity Dracula embodies outside the conventional landscape of films with which the vampire is typically associated. Focusing on Dracula and Dracula-type characters in film, anime, and literature from predominantly non-Anglo markets, this anthology offers unique perspectives that seek to ground depictions and experiences of Dracula within a larger political, historical, and cultural framework.

Neglected vampire classics - including tales by Sir Arthur Conan Doyle, Algernon Blackwood and others.

Selected and introduced by Richard Dalby.

Tomb Of Dracula Binker North
Revenge, bloodlust, and desire for a single woman, propel Volume 2, to new heights of deceit and carnage. Valerian's kingdom is decimated by the cowardly attack of his brother, Argus. Valerian finds the strength to amass a formidable army to extract his revenge and prove himself the stronger of Dracula's offspring. Darkness descends over a land torn apart by the feuding brothers, yet it's a woman who holds the key to peace, Hanine, a human of fiery temperament, determined to lead her own life - the property of no man or vampire. She no longer understands the tragic twist her life has taken, nor can she read the tale of her heart and the simmering love she holds there for a man she may never call her own. Argus and Valerian are unaware of Don and the transformation that has taken him from the arms of Hanine to a place of pride and insatiable need. He is the wild card that will turn the tables on the unwitting brothers. Purchase Volume 2 today and let your soul taste the unknown.
