Power up with Mario, battle monsters with Link, and get splatted in Inkopolis! Nintendo fans will love this full-color activity book featuring characters from Super Mario(TM), The Legend of Zelda(TM), and Splatoon(TM). With tons of awesome activities, trivia, and stickers, Nintendo fans will have nonstop fun with this Nintendo full-color activity sticker book. Mario first appeared in 1981 with the arcade classic Donkey Kong(TM) and went on to star in many adventures, evolving into the beloved

icon he is today. He is a video-game sensation, appearing across all genres--from action-platformers to sports, kart racing, and beyond. Since their North American debut in 1987, The Legend of Zelda games have earned a well-deserved reputation, having captured the hearts and imaginations of their players. The art design and mood differs greatly from title to title, but they unite to tell the story of the protagonist, Link, as he battles against all obstacles to prevent evil from consuming the land. The Splatoon and Splatoon 2 games are colorful and chaotic. Splatter enemies and claim your turf as ink-spewing, squid-like characters called Inklings--the coolest kids you're likely to meet--change from humanoid to squid and back again as you make your way across the battlefield at top speed. Step into the ultra-

fashionable shoes of an Inkling and blast your way to turf-war victory with ink and attitude.

Things I Learned from Mario's Butt VIZ Media LLC

"You know how, since the dawn of humanity, great philosophers and poets have dedicated their entire lives to exploring concepts like love, life itself, logic, and sorrow? Well, those great philosophers and poets are dead now, so I win." — Shen Emotions Explained

Featuring the resilient, shaggy-haired Shen, this debut collection of Owlurd Comix is a tale of triumph and survival — of getting your ass kicked by sleep deprivation and student loans, but never losing hope. Have you ever wondered why some video game characters wear trousers and others don't? Or pondered the connection between a character's toned, muscular derrière and their level of dexterity? What about the depth of a crack, the jiggle of a cheek? When it comes to video game character designs, one of the most overlooked aspects is the buttocks. Sure, we might appreciate a nice toned butt on a character or giggle at GIFs of farts from time to time, but how often do we stop to really think about the meaning of the butt? In *Things I Learned from Mario's Butt*, video game critic Laura Kate Dale brings backsides to the foreground, analysing dozens of posteriors and asking the important questions: Has Mario let himself go? Do Link's small buttocks hold him back? When he dies, is Pac-Man eaten by his own caboose? Wedged full of original artwork by Zack Flavin, and featuring interviews with game developers and guest butt reviews from gaming favourites such as Jim Sterling, Stuart Ashen, Brentalfloss and more,

this book is a deep dive into why butts are downright integral to the games we play. So, crack it open and have a cheeky look inside at some of the most interesting bottoms the world of video games has to offer.
