"As teachers today, everything we teach has to be turbo-charged with skills and the promise of advancing our students academically. Here's the cool thing: poetry can get you there. It is inherently turbo-charged. Poets distill a novel's worth of content and emotion in twenty lines. The

literary elements and devices you need to teach are all there, powerful and miniature as a Bonsai tree." -Paul B. Janeczko You'd like to teach poetry with confidence and passion, but let's face it: poetry can be intimidating to both you and your students. Here is the book that takes the fear factor out of poetry and shows you how to use this powerful genre to spark student engagement and meet language arts requirements. Award-winning poet Paul B. Janeczko is the master for creating anthologies for pre-teen and adolescent readers, and here he's chosen 20 contemporary and classic selections with

step-by-step, detailed lessons for investigating each poem from the inside out. Kids learn to become active readers of poetry, using graphic organizer worksheets to help them jump over their fear and dive into personal, smart, analytical responses. There's no better genre than poetry for helping students gain perspective on their own identities and their own worlds, and Paul provides a space on each reproducible poem for private thoughts, questions, feelings, and ideas. Your students will discover what each poem means to them. The 20 poems in this collection were chosen for their

thought-provoking topics; compelling real-world themes that lead to conversation and collaboration in middle school classrooms. And by showing you how the poems and activities address the common core standards for English Language Arts (complete with a sample chart linking the poems to the standards), Paul provides a clear understanding of how you can "get there" using poetry. You can cultivate a passion for poetry in your classroom. Take the journey with Paul B. Janeczko and grow in confidence with your students, meeting some standards along the way.

American Spring Song Heinemann
Educational Books

The long-anticipated, riveting autobiography of the late Stokely Carmichael chronicles the legendary civil rights leader's work as the charismatic patriarch of Black Power, Pan-African activist, and social revolutionary - a major milestone in African-American autobiography. Populated with an international cast of luminaries, including James Baldwin, Fannie Lou Hamer, Miriam Makeba, Shirley Graham Du Bois, Toni Morrison, Martin Luther King, Jr., Malcolm X, Ho Chi Minh and Fidel Castro, this book

captures the cultural upheavals that define the modern world.

Racism in America Harvard University Press

What would the island of Hispaniola look like if viewed as a loosely connected system? That is the question Haitian-Dominican Counterpoint seeks to answer as it surveys the insular space shared by Haiti and the Dominican Republic throughout their parallel histories. For beneath the familiar tale of hostilities, the systemic perspective reveals a lesser-known, "unitarian" narrative of interdependencies and reciprocal influences shaping each country's identity. In view of the sociocultural and economic linkages connecting the two countries, their relations would have to resemble not so much a cockfight (the conventional metaphor) as a serial and polyrhythmic counterpoint.

The Haitian Declaration of Independence Harper Collins

Promoted to brigadier general at the start of World War II, Davis headed a special section that monitored black military units at home and overseas, investigated an increasing number of racial disturbances,

and bolstered the black soldier's morale. He was largely responsible for persuading the Army to try a limited form of integration. The success of that effort led to a federal mandate for the integration of the entire American armed forces."--

Antisemitism and the Constitution of Sociology Univ of California Press

One of America's most prominent historians and a noted feminist bring together the most important political writings and testimonials from African-Americans over three centuries.

The Publishers Weekly BRILL

The usefulness and political implications of Area Studies programs are currently debated within the Academy and the Administration, where they are often treated as one homogenous and stagnant domain of scholarship. The essays in this volume document the various fields' distinctive character and internal heterogeneity as well as the dynamism resulting from their evolving engagements with funders, US and international politics, and domestic constituencies. The authors were chosen for their long-standing interest in the intellectual evolution of their fields. They describe the origins and

histories of US-based Area Studies programs, highlighting their complex, generative, and sometimes contentious relationships with the social science and humanities disciplines and their diverse contributions to the regions of the world with which they are concerned.

Double Victory Springer

This is a volume of collected poems by a man who is considered by some to rank among such notables as Conrad Aiken, MacLeish, Eliot, Spender, Auden, and Frost. As a poet he exhibits a fine eye and ear and a fine mind for an appraisal of the scene around him. Originally published in 1942. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the

world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

What Was African American Literature?

University of Virginia Press

Since the beginning of television, Westerns have been playing on the small screen. From the mid-1950s until the early 1960s, they were one of TV's most popular genres, with millions of viewers tuning in to such popular shows as *Rawhide*, *Gunsmoke*, and Disney's *Davy Crockett*. Though the cultural revolution of the later 1960s contributed to the demise of traditional Western programs, the Western never actually disappeared from TV. Instead, it took on new forms, such as the highly popular *Lonesome Dove* and *Deadwood*, while exploring the lives of characters who never before had a starring role, including anti-heroes, mountain men, farmers, Native and African Americans, Latinos, and women. *Shooting Stars of the Small Screen* is a comprehensive encyclopedia of more than 450 actors who received star billing or played a recurring character role in a TV Western series or a made-for-TV Western

movie or miniseries from the late 1940s up to 2008. Douglas Brode covers the highlights of each actor's career, including Western movie work, if significant, to give a full sense of the actor's screen persona(s). Within the entries are discussions of scores of popular Western TV shows that explore how these programs both reflected and impacted the social world in which they aired. Brode opens the encyclopedia with a fascinating history of the TV Western that traces its roots in B Western movies, while also showing how TV Westerns developed their own unique storytelling conventions.

Making Marriage Modern Chicago Review Press

Benjamin Franklin describes a childhood incident of buying a whistle that taught him a lesson he never forgot.

Stokely Speaks Simon and Schuster
Hailed by national leaders as politically diverse as former Vice President Al Gore and former House Speaker Newt Gingrich,

Generations has been heralded by reviewers as a brilliant, if somewhat unsettling, reassessment of where America is heading. William Strauss and Neil Howe posit the history of America as a succession of generational biographies, beginning in 1584 and encompassing every-one through the children of today. Their bold theory is that each generation belongs to one of four types, and that these types repeat sequentially in a fixed pattern. The vision of Generations allows us to plot a recurring cycle in American history -- a cycle of spiritual awakenings and secular crises -- from the founding colonists through the present day and well into this millenium. Generations is at once a refreshing historical narrative and a thrilling intuitive leap that reorders not only our history books but also our expectations for the twenty-first century.

Haitian-Dominican Counterpoint

Palgrave Macmillan

Best known to Americans as the "singing cowboy," beloved entertainer Gene Autry (1907-1998) appeared in countless films, radio broadcasts, television shows, and other venues. While Autry's name and a few of his hit songs are still widely known

today, his commitment to political causes and public diplomacy deserves greater appreciation. In this innovative examination of Autry's influence on public opinion, Michael Duchemin explores the various platforms this cowboy crooner used to support important causes, notably Franklin D. Roosevelt's New Deal and foreign policy initiatives leading up to World War II. As a prolific performer of western folk songs and country-western music, Autry gained popularity in the 1930s by developing a persona that appealed to rural, small-town, and newly urban fans. It was during this same time, Duchemin explains, that Autry threw his support behind the thirty-second president of the United States. Drawing on a wealth of primary sources, Duchemin demonstrates how Autry popularized Roosevelt's New Deal policies and made them more attractive to the American public. In turn, the president used the emerging motion picture industry as an instrument of public diplomacy to enhance his policy agendas, which Autry's films, backed by Republic Pictures, unabashedly endorsed. As the United States inched toward entry into World War II, the

president's focus shifted toward foreign policy. Autry responded by promoting Americanism, war preparedness, and friendly relations with Latin America. As a result, Duchemin argues, "Sergeant Gene Autry" played a unique role in making FDR's internationalist policies more palatable for American citizens reluctant to engage in another foreign war. New Deal Cowboy enhances our understanding of Gene Autry as a western folk hero who, during critical times of economic recovery and international crisis, readily assumed the role of public diplomat, skillfully using his talents to persuade a marginalized populace to embrace a nationalist agenda. By drawing connections between western popular culture and American political history, the book also offers valuable insight concerning the development of leisure and western tourism, the information industry, public diplomacy, and foreign policy in twentieth-century America.

Barefoot Days University of Oklahoma Press

Autobiography of the colorful life and times of Dr. Bill Robinson, including adventures in prep school, kayaking,

psychedelic explorations of inner space, five years in prison, building an experiment in instrumental transcommunication, composing exotic classical music, and getting a doctorate in plasma physics.

Black Cuban, Black American Back Bay Books

This book explores one of the most dramatic and scandalous events in the movement for American democratic reform. Dubbed the Memorial Day Massacre, it saw Chicago police shoot and kill ten demonstrators and beat more than one hundred others as they tried to form a mass picket line at the Republic Steel Plant in South Chicago.

The Bright Plain University of Texas Press

Modern antisemitism and the modern discipline of sociology not only emerged in the same period, but antagonism and hostility between the two discourses notwithstanding also overlapped and complemented each other. Sociology emerged in a society where modernization was often perceived as destroying unity and social cohesion. Antisemitism was likewise a response to the modern

age, offering in its vilifications of the Jew an explanation of society's deficiencies and crises. "Antisemitism and the Constitution of Sociology" is a collection of essays providing a comparative analysis of modern antisemitism and the rise of sociology. This volume addresses three key areas: the strong influence of writers of Jewish background and the rising tide of antisemitism on the formation of sociology; the role of antisemitism in the historical development of sociology through its treatment by leading figures in the field, such as Emile Durkheim, Talcott Parsons, and Theodor W. Adorno; and the discipline's development in the aftermath of the Nazi Holocaust. Together the essays provide a fresh perspective on the history of sociology and the role that antisemitism, Jews, fascism, and the Holocaust played in shaping modern social theory.

In the speeches and articles collected in this book, the black activist, organizer, and freedom fighter Stokely Carmichael traces

the dramatic changes in his own consciousness and that of black Americans that took place during the evolving movements of Civil Rights, Black Power, and Pan-Africanism. Unique in his belief that the destiny of African Americans could not be separated from that of oppressed people the world over, Carmichael's Black Power principles insisted that blacks resist white brainwashing and redefine themselves. He was concerned not only with racism and exploitation, but with cultural integrity and the colonization of Africans in America. In these essays on racism, Black Power, the pitfalls of conventional liberalism, and solidarity with the oppressed masses and freedom fighters of all races and creeds, Carmichael addresses questions that still confront the black world and points to a need for an ideology of black and African liberation, unification, and transformation.
