Providence Canyon
State Park, also known

as Georgia's "Little Grand Canyon," preserves a network of massive erosion gullies allegedly caused by poor farming practices during the nineteenth century. It is a park that protects the scenic results of an environmental disaster. While little known today, Providence Canyon enjoyed a modicum of fame in the 1930s. During that decade, local boosters attempted to have Providence Canyon protected as a national park, insisting that it was natural. At the same time, national and international soil experts and other environmental reformers used Providence Canyon as the apotheosis of human, and particularly southern,

land abuse. *Let Us Now Praise Famous Gullies* uses the unlikely story of Providence Canyon—and the 1930s contest over its origins and meaning—to recount the larger history of dramatic human-induced soil erosion across the South and to highlight the role that the region and its erosive agricultural history played in the rise of soil science and soil conservation in America. More than that, though, the book is a meditation on the ways in which our persistent mental habit of separating nature from culture has stunted our ability to appreciate places like Providence Canyon and to understand the larger history of American conservation. **Georgia in the**

Mountains of Poetry

Bloomsbury Publishing
A Queer History of
Adolescence reveals
categories of age—and
adolescence,
specifically—as an
undeniable and
essential mechanism in
the production of
difference itself.
Drawing from a
dynamic and varied
archive, including
British and American
newspapers, medical
papers and pamphlets,
and adolescent and
children’s literature
circulating on both
sides of the Atlantic,
Gabrielle Owen argues
that adolescence has a
logic, a way of
thinking, that emerges
over the course of the
nineteenth century and
that survives in various
forms to this day. This
logic makes the idea of
adolescence possible
and naturalizes our

historically specific
ways of
conceptualizing time,
development, social
hierarchy, and the self.
Rich in intersectional
analysis, this book
offers a multifaceted
and historicized theory
for categories of age
that challenges
existing methodologies
for studying the people
called children and
adolescents. Rather
than offering critique
as an end in and of
itself, A Queer History
of Adolescence
imagines the world-
making possibilities
that critique enables
and, in so doing, shines
a necessary light on
the question of
relationality in the
lived world. Owen
exposes the profound
presence of history in
our current moment in
order to transform the
habits of mind shaping

age relations, social hierarchy, and the politics of identity today.

Cosmopolitan Best

New Books of Summer

PureWow Best Reads

of Summer From the

author of the critically acclaimed “lively and

engrossing parable for women of all

generations” (Harper’s

Bazaar) *The Regulars*,

comes a deeply funny

and thoughtful tale of a young woman who

embarks on an

unforgettable bucket

list adventure. Twenty-five-old Lacey Whitman

is blindsided when

she’s diagnosed with

the BRCA1 gene

mutation: the “breast

cancer” gene. Her high hereditary risk forces a decision: increased surveillance or the more radical step of a preventative double mastectomy. Lacey doesn't want to lose her breasts. For one, she’s juggling two career paths. Secondly, small-town Lacey’s not so in touch with her sexuality: she doesn’t want to sacrifice her breasts before she’s had the chance to give them their hey-day. To help her make her choice, she (and her friends) creates a “boob bucket list”: everything she wants do with and for her boobs before a possible surgery. This kicks off a year of sensual exploration and sexual entertainment for the quick-witted Lacey Whitman. *The Bucket*

List cleverly and compassionately explores Lacey's relationship to her body and her future. Both are things Lacey thought she could control through hard work and sacrifice. But the future, it turns out, is more complicated than she could ever imagine. Featuring the pitch-perfect "compulsively delicious" (Redbook) prose of *The Regulars*, *The Bucket List* is perfect for fans of Amy Poepel and Sophie Kinsella.

Mongolia - Culture Smart! Anchor Canada Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's

well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or

calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental

outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It

is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Each region, caste, and community in India has its own culture, reflecting unique histories shaped by conquest, creativity, and religion. Steeped in ancient traditions and intensely passionate about their culture, Indians are ingenious, creative world leaders in cutting-edge science and technology.

Culture Smart India will show you how to navigate often profound cultural differences and build relationships.

Things Fall Apart
Penguin

In the summer of 1978, the B-52's conquered the New York

underground. A year later, the band's self-titled debut album burst onto the Billboard charts, capturing the imagination of fans and music critics worldwide. The fact that the group had formed in the sleepy southern college town of Athens, Georgia, only increased the fascination. Soon, more Athens bands followed the B-52's into the vanguard of the new American music that would come to be known as "alternative," including R.E.M., who catapulted over the course of the 1980s to the top of the musical mainstream. As acts like the B-52's, R.E.M., and Pylon drew the eyes of New York tastemakers southward, they discovered in Athens an unexpected mecca

of music, experimental art, DIY spirit, and progressive politics--a creative underground as vibrant as any to be found in the country's major cities. In Athens in the eighties, if you were young and willing to live without much money, anything seemed possible. Cool Town reveals the passion, vitality, and enduring significance of a bohemian scene that became a model for others to follow. Grace Elizabeth Hale experienced the Athens scene as a student, small-business owner, and band member. Blending personal recollection with a historian's eye, she reconstructs the networks of bands, artists, and friends that drew on the things at hand to make a new art of the possible,

transforming American culture along the way. In a story full of music and brimming with hope, Hale shows how an unlikely cast of characters in an unlikely place made a surprising and beautiful new world.

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."—Booklist, starred review Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved

some of the heaviest fighting of the war, and with their code, they saved countless American lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. An ALA Best Book for Young Adults "Nonsensational and accurate, Bruchac's tale is quietly inspiring..."—School Library Journal

Let Us Now Praise Famous Gullies Asian Development Bank For Westerners, the modern state of Azerbaijan may be hard to pinpoint. This small, oil-rich country in the southern Caucasus, on the southwestern shore of the Caspian Sea, only made its way on to the contemporary world map after the dissolution of the Soviet Union in 1991. As the world shrinks and competition for precious resources intensifies, the direction this strategically and economically important country takes will affect us all. The historically tolerant and pluralist Azeri people have an ancient history and a rich culture. Azerbaijan lay on the route of the

Great Silk Road, the trade network that connected China with Europe, and its people have lived through centuries of conquests by different imperial powers. It was also situated in the heart of the Great Game, the struggle for control of Central Asia played out between Russia and the West at the turn on the nineteenth century, which seems to be going through a modern remake. Azerbaijan has been called “the quintessential borderland, many times over: between Europe and Asia, Islam and Christianity, Russia and the Middle East, Turks and Iranians, Shi’a and Sunni Islam.” Azerbaijan was briefly independent after the First World War, when it was the first Muslim

state to adopt progressive Western values. A democratic republic with full women’s suffrage, it boasted the first women’s high school, the first opera, and the first female opera composer, as well as the first ballet in the Muslim world. There followed seventy years of Soviet rule. After a bitter war in 1991–94, areas of Azerbaijan were occupied by neighboring Armenia, and the country has absorbed a huge number of refugees. At the same time, it is experiencing a new oil boom and the economy is growing. Among the people, there is a growing sense of national identity. Culture Smart! Azerbaijan looks at the many facets of this identity and explains

the complex workings of Azerbaijani society. It will equip you with vital information and advice about the customs, practices, and sensibilities of a society poised on the brink of change.

Parenting Matters

Simon and Schuster
In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-

wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what

communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Smart! St. Martin's Press

Foodborne illness is a big problem. Wash those chicken breasts, and you're likely to spread Salmonella to your countertops, kitchen towels, and other foods nearby. Even salad greens can become biohazards when toxic strains of E. coli inhabit the water used to irrigate crops. All told, contaminated food causes 48 million illnesses, 128,000 hospitalizations, and 3,000 deaths each year

in the United States. With *Outbreak*, Timothy D. Lytton provides an up-to-date history and analysis of the US food safety system. He pays particular attention to important but frequently overlooked elements of the system, including private audits and liability insurance. Lytton chronicles efforts dating back to the 1800s to combat widespread contamination by pathogens such as E. coli and salmonella that have become frighteningly familiar to consumers. Over time, deadly foodborne illness outbreaks caused by infected milk, poison hamburgers, and tainted spinach have spurred steady scientific and

technological advances in food safety. Nevertheless, problems persist. Inadequate agency budgets restrict the reach of government regulation. Pressure from consumers to keep prices down constrains industry investments in safety. The limits of scientific knowledge leave experts unable to assess policies' effectiveness and whether measures designed to reduce contamination have actually improved public health. Outbreak offers practical reforms that will strengthen the food safety system's capacity to learn from its mistakes and identify cost-effective food safety efforts capable of producing measurable public health benefits.

Strategic Vision

University of Georgia Press

This new sixth edition of Bradt's Georgia, the only dedicated guide to the country, has been thoroughly updated throughout to include all the most recent developments, ranging from greatly expanded coverage of Batumi, Adjara and Svaneti to the addition of new maps for Tbilisi, Mestia and Telavi. Tourism is booming in Georgia: the number of guesthouses has mushroomed, Tbilisi airport has just opened a second terminal and a new terminal and rail link are under construction at Kutaisi airport. New low-cost flights are now available and visa-free travel is the norm for most. With Bradt's Georgia discover both the old and the new.

The capital, Tbilisi, has seen huge changes in the past decade with some conspicuous new projects such as the Peace Bridge, the Opera House and the Presidential Palace, as well as excellent new restaurants and bars. Much of the country can be reached in day-trips from the luxury hotels of Tbilisi and Batumi, and the remotest areas such as Svaneti and the Pankisi Valley can also now be visited. In addition, Mestia, the capital of Svaneti, now has an airport and two ski resorts. Also new for this edition is expanded information on Tusheti and the Trans Caucasian Trail, a volunteer-led project to create two long-distance hiking routes, east-west and north-south, linking the Black

Sea with the Caspian, the Greater Caucasus with the Lower Caucasus and Georgia with Armenia and Azerbaijan. The Georgian wine industry is covered, with particular emphasis on natural qvevri wines, and so too are skiing, rugby, the World Heritage sites of Mtskheta and Gelati, Georgian food, 5th-century churches, cave cities, and Georgian polyphonic singing. Bradt's unique guide to Georgia is the ideal companion for all travellers, from serious hikers to wine buffs, high-end culture lovers to backpackers of all ages.

Into the Wild National Academies Press
 Georgia lies between Eastern Europe, Central Asia, and the Middle East, on the

southeastern shore of the Black Sea. This small Caucasian country is used to playing a significant role in global geopolitics, and its strategic location at the crossroads of different civilizations has been a curse as well as a blessing. Once a battlefield of the Christian and Muslim worlds, today it is caught between its NATO aspirations and its location in Russia's backyard. The Silk Road brought the best of the world to Georgia. Its ancient Christian culture shows the influence of Arab, Persian, and Ottoman conquerors. Combined with this is a southern, "Mediterranean" feel, traces of the Soviet legacy, and a strong Western influence. What awaits the visitor

is a unique culture that goes back thousands of years. Georgia has a rich historical heritage, wonderful food and wines, unforgettable scenery, authentic folk music and dances, an attractive business climate, and an educated and hospitable people for whom indulging a guest is more a religion than a duty. Culture Smart! Georgia offers invaluable insights and practical tips for tourists and business people alike. The author, Natia Abramia, guides you through the past and present-day realities of her motherland, explaining what makes people tick, how they live and feel, and how to get on with them. You will discover that the Georgians will not let you down. Learn how

to reach their hearts, and they will charm you back.

recommend.” —Elin

Hilderbrand, #1 New York Times bestselling author

“A heady kaleidoscope of romance, heartbreak, and healing that’s both rich in insight and enchantingly funny.”

—Fiona Davis, New York Times bestselling author The author of

the “emotional, hilarious, and thought-provoking” (People) novel *The Bucket List* returns with a witty and heartfelt romantic comedy featuring a wedding planner, her unexpected business partner, and their coworkers in a series of linked love stories—perfect for fans of Christina Lauren and Casey McQuiston. For the past twenty years, Liv and Eliot Goldenhorn have run *In Love* in New York, Brooklyn’s beloved wedding-planning business. When Eliot dies unexpectedly, he even more unexpectedly leaves half of the business to his younger, blonder girlfriend, Savannah. Liv and Savannah are not a match made in heaven, to say the

least. But what starts as a personal and professional nightmare transforms into something even savvy, cynical Liv Goldenhorn couldn't begin to imagine. It Had to Be You cleverly unites Liv, Savannah, and couples as diverse and unique as New York City itself, in a joyous Love-Actually-style braided narrative. The result is a smart, modern love story that truly speaks to our times. Second chances, secret romance, and steamy soul mates are front and center in this sexy, tender, and utterly charming rom-com that is "so much fun" (Casey McQuiston, New York Times bestselling author).

Azerbaijan - Culture Smart! Moon Travel

This is the first comprehensive cultural

and historical introduction to modern Georgia. It covers the country region by region, taking the form of a literary journey through the transition from Soviet Georgia to the modern independent nation state. Georgia's recorded history goes back nearly 3,000 years. The Georgians converted to Christianity in 330 and their Bagratuni monarchy endured for over 1,000 years. The Soviets ruled the region from 1921 but their vigorous repression did little to eradicate the strong Georgian sense of nationhood and under Gorbachev, Georgian independence became inevitable. Nasmyth's lively and topical survey charts the nation's remarkable

cultural and historical journey to statehood. Having travelled extensively in the country over a period of five years, Peter Nasmyth is exceptionally qualified to write on Georgia. His authoritative, dynamic and perceptive book is based on hundreds of interviews with modern Georgians, from country priests to black marketeers. Georgia will be essential reading for anyone interested in this fascinating region as well as for students and researchers requiring an insight into life after the collapse of the old Soviet order in the richest and most dramatic of the former republics.

Conscientious Thinking
Simon and Schuster
Winner of the Pulitzer

Prize and the National Book Award, this #1 New York Times bestseller chronicles a young slave's adventures as she makes a desperate bid for freedom in the antebellum South. The basis for the acclaimed original Amazon Prime Video series directed by Barry Jenkins. Cora is a slave on a cotton plantation in Georgia. An outcast even among her fellow Africans, she is on the cusp of womanhood—where greater pain awaits. And so when Caesar, a slave who has recently arrived from Virginia, urges her to join him on the Underground Railroad, she seizes the opportunity and escapes with him. In Colson Whitehead's ingenious conception, the Underground

Railroad is no mere metaphor: engineers and conductors operate a secret network of actual tracks and tunnels beneath the Southern soil. Cora embarks on a harrowing flight from one state to the next, encountering, like Gulliver, strange yet familiar iterations of her own world at each stop. As Whitehead brilliantly re-creates the terrors of the antebellum era, he weaves in the saga of our nation, from the brutal abduction of Africans to the unfulfilled promises of the present day. The Underground Railroad is both the gripping tale of one woman's will to escape the horrors of bondage—and a powerful meditation on the history we all

share. Look for Colson Whitehead's bestselling new novel, *Harlem Shuffle!* [Barely Missing](#) [Everything](#) Kuperard A powerful new romance from a best-selling writer of lesbian fiction. At Any Cost unravels the twisted story of Rod Covlin, whose unrepentant greed drove him to an unspeakable act of murder and betrayal that rocked New York City. Wealthy, beautiful, and brilliant, Shele Danishefsky had fulfillment at her fingertips. Having conquered Wall Street, she was eager to build a family with her much younger husband, promising Ivy League graduate Rod Covlin. But when his hidden vices surfaced, marital harmony gave way to a

merciless divorce. Rod had long depended on Shele's income to fund his tastes for high stakes backgammon and infidelity--and she finally vowed to sever him from her will. In late December 2009, Shele made an appointment with her lawyer to block him from her millions. She would never make it to that meeting. Two days later, on New Year's Eve, Shele was found dead in the bathtub of her Upper West Side apartment. Police ruled it an accident, and Shele's deeply Orthodox Jewish family quickly buried her without an autopsy on religious grounds. Rod had a clear path to his ex-wife's fortune, but suspicions about her death lingered. As the two families warred over custody of Shele's

children—and their inheritance— Rod concocted a series of increasingly demented schemes, even plotting to kill his own parents, to secure the treasure. And as investigators closed in, Rod committed a final, desperate act to frame his own daughter for her mother’s death.

Journalists Rebecca Rosenberg and Selim Algar reconstruct the ten years that passed between the day Shele was found dead and the day her killer faced justice in this riveting account of how one man’s irrepressible greed devolved into obsession, manipulation, and murder.
