Clinical Dermatology Trials 101 provides dermatologists with a handbook that allows them to

become familiar with all aspects of clinical trials. Everything from obtaining the necessary tools and equipment, complying with local, federal, and international guidelines and regulations, and hiring and training staff for the safe and up-to-date conduct of dermatology clinical trials is covered.

Written by leading experts in the field, *Clinical Dermatology Trials 101* is the only clinical trial how-to available for dermatologists. With skin disease affecting nearly seventy percent of the population over a lifetime, and the rate of development of new drugs and devices for dermatologic use increasing at an exponential rate, there is a tremendous need for training and developing dermatology clinical research facilities to expedite the translation of basic and applied research, from bench to bedside. This is useful for practicing dermatologists, academic dermatologists, dermatology residents, clinical research fellows, dermatology fellows, research scientists, industry dermatologists, and medical students.

Camp Granada is a curriculum and administrative guide to organize a music camp in your school, church, community center, or wherever there are people who love music and who desire to share that love of music with young children. Its theme-based lessons blend the instructional rigor of formal music learning with the fun, excitement, and life-changing atmosphere of summer camp, and integrate arts and classroom objectives into a music curriculum that fosters creativity and musical exploration. Activities include singing, playing instruments, movement, listening, music literacy, and summer-camp style games and activities that continue to expose students to music content and skills. The mission of *Camp Granada* is to provide the highest quality music camp experience in a child-centered environment that encourages participation, stimulates creativity, and focuses on fun; to increase each child's awareness and enjoyment of music; and to instill in each child a desire to continue musical involvement for a lifetime. Operations and Supply Chain Management Taylor & Francis

Representing the leading scholars in the field, *Professionalism and Public Service* assesses the state of public administration in Canada while also moving the discipline forward both as a profession and an academic discipline. The contributors to this volume trace the evolution of public administration institutions and explore issues such as the protection and improvement of the public service, recent innovations in the area of service delivery, and how this has created increased legitimacy and recognition from citizens. The various chapters also examine the importance of ongoing learning and training within the public service, and study many recent advances in teaching methods for both students as well as for public administration practitioners. Written in honour of Kenneth Kernaghan, the groundbreaking scholar who played an important role in public administration in Canada, *Professionalism and Public Service* thematically highlights some of his lasting contributions to the discipline. It is a history of the recent evolution of an essential part of Canadian governance and a fitting tribute to a distinguished scholar.

Since its founding in 1982, the Small Business Innovation Research (SBIR) program has become the largest and most comprehensive public research and development funding program of small business research in the United States. An underlying tenet of the SBIR program, and the related Small Business Technology Transfer (STTR) program, is that small and young firms are an important source of new ideas that provide the underlying basis for technological innovation, productivity

increases, and subsequent economic growth. By involving qualified small businesses in the nation's research and development efforts, SBIR/STTR grants stimulate the development of innovative technologies and help federal agencies achieve their missions and objectives. At the request of the Department of Energy (DOE), this report examines the SBIR and STTR programs at DOE, focusing on the effectiveness of DOE's SBIR/STTR processes and procedures on topic and awardee selection; DOE outreach efforts to SBIR and STTR applicants; collaborations created between small businesses and research institutions on account of the programs; a range of direct economic and non-economic impacts to awardees; and the role of SBIR/STTR programs in stimulating technological innovation and contributing to DOE's research and development needs, whether directly from awardees or indirectly through spillovers from other firms.
