This book provides a technological history of modern India, in particular the Nehruvian development in the context of the Cold War. Through a series of case studies about military modernization, transportation infrastructure, and electric power, it examines how the ideals of autarky and technological indigenization conflicted with the economic and political realities of the Cold War world. Where other studies tend to focus on the political leaders and economists who oversaw development, this book demonstrates how the perspective of the engineers, government bureaucrats, and aid workers informed and ultimately implemented development.

Energy production and utilization are directly associated with climate change. Harnessing energy from renewables can provide a viable path towards achieving sustainability and reducing carbon

footprints, which can help mitigate the harmful effects of climate change. India is endowed with substantial hydropower potential. Under this light, Renewable Energy from Small & Micro Hydro Projects: practical aspects & case studies introduces the process of developing hydropower projects, especially in Indian context. The role of hydroelectric power, as part of water management, in combating climate change also forms the subject matter of this book. Selection of suitable sites, hydro turbines, electrical systems, transportation, and salient features of dam and reservoir operation are discussed. Cost estimation, feasibility studies, promotional policies of the government, and other organizations involved in hydropower also form the subject matter of the title. The publication also covers the basics of fluid mechanics along with an overview of the hydropower development in India and the world. The book is supplemented with statistical data relevant to development and operation of hydropower projects which makes the text an authentic read. It will be a useful guide and reference to students, designers, planners, consultants, and field engineers engaged in hydro energy sector.

In the present days of International Trade (year 2014), India's Trade deficit or the current account deficit runs to nearly \$40 Billion. This represents more than 2% of the national GDP. In view of this large deficit, the country faces unprecedented inflation. India's major exports include Information Technology, pharmaceuticals, as well as gems and jewellery. Manufactured goods, automobiles and heavy machinery intended for manufacturing purposes account for very little when compared to countries like China, Japan, Germany and South Korea. Therefore, it is imminent that quality of such products manufactured in the country meets the international standards. In addition, innovative marketing techniques need to be adopted by individuals and companies to position our products globally. Most of the international trade takes place between Business to Business rather than Business to Consumer directly. The book focuses on this sector of Business, namely, Business to Business Marketing. Needless to say, text material provided will be useful for industrialists, technocrats as well as regular management students. The book will be available in -<http://www.amazon.in/>

Human Resource Development In Public Enterprises Mittal Publications

Spanning over two millennia of time and five continents of space, this book narrates the unfolding of financial and business reporting. The first part of the book traces the origin of the 'company' as a form of organization and the evolution of bookkeeping. The second part: The Accounting Edifice, depicts events that led to the disclosure of the balance sheet, the profit and loss account, cash

flow statements and the practice of auditing. In the third part: Reaching out to the Shareholders, the author explores the need for governance, reporting of intangible assets and the emergence of annual reports. Indian Corporate Disclosures, the fourth and the last part, sketches the panorama of post-independent developments in Indian corporate disclosures using heritage IT companies, Wipro and Infosys as examples. The last chapter of the book contrasts disclosures by the Indian Sensex companies in 2007 with the best global practices.

The revised and updated Fifth Edition gives an in-depth and incisive analysis of the basic principles of strategic management. The exposition of these principles is reinforced by seven case studies that encompass the broad spectrum of Indian companies. These case studies are culled mainly from manufacturing and information technology, and include both private and public sector units. The case studies will be of immense help to the budding managers as well as provide them with the requisite practical orientation for understanding the strategic management issues. The inclusion of the concepts, theory and case studies in a single, compact volume is the main feature of the book, which makes the subject easier to understand and learn. Intended primarily as a textbook for postgraduate students of management and commerce, this book is of immense help to all those attending management development and executive development programmes. New to This Edition • A brief section on 'Government Initiatives' is added in Chapter 4. • Section on 'CSR activities mandated by the Government of India', have been incorporated in Chapter 5. • A new case study on Indian Airline has been introduced. • All case studies of the previous edition have been updated with latest company information and development.

Haridwar has hills, forest, river, plane fields, canal, and in between them the temple town, which makes it a complete city of God. When a baby is born, his family takes him to the Haridwar to perform its Mundane (hair cut ceremony) rituals.... In the past centuries and even nowadays people at a very young age, come to the city to get the knowledge of Vedic ritual at gurukuls. On many auspicious occasions like marriage, people visit the city to take a bath in the sacred river Ganga. After the death, the family members take the ashes to immerse it in the holy river Ganga for the peace of soul. Here, you can explore many places and get vast knowledge in various subjects like Indian Vedic culture, yoga and even learn the Sanskrit language. So, explore the mythology, culture, temples, places to visit, things to do, places to eat, and much more about Haridwar like never before in "The Citygraphy of holy town Haridwar" People visit the place from different parts of the country and abroad. People of different ages get other enthusiasm to visit this holy place. Like an aged person would think- Oh! We are going to Ganga Maa's place, I will visit all the temples, and I will offer different offerings to God. Similarly, a young married man might want to go there to celebrate holidays with his family, as this is a great place to visit. Perhaps a picture will come in the minds of children to buy toys from Mota market in the name of going to Haridwar and view the city from Maa Mansa Devi and Maa Chandī Devi Temple. When young people make a trip towards the Himalayas, they usually make a night stay at Haridwar. People come here to visit in groups from colleges and offices. Often, people of the group first enjoy

a forest safari in Rajaji National Park and then go rafting in the Rishikesh River. One thing remains common in the plan of each individual and that is to witness the evening Aarti of Goddess Ganga at Hari ki Pauri. That sound of Chanting of Mantras with temple bells
