ROBERTSON HESTER

Hindu, Sufi, or Sikh Chandigarh : Publication Bureau, Panjab University

This glossy coffee-table book captures in vivid detail the rise of the Sikhs as a global community. The Sikhs started migrating to various corners of the globe from about the end of the 19th century. However, today they occupy a place of pride in their adopted lands owing to their sterling success in fields as diverse as politics, business, entertainment and administration. The lucid style of writing, combined with exhaustive research conducted across various parts of the world, makes this book an important tool in assessing the success of this enterprising and global

community.

First published in 1992.

How to Speak and Write Correctly Springer

How have the premodern Shaiva ascetic sect of the Nāth Yogīs (known also as the Yogīs with splitted ears) succeeded in maintaining its presence and importance until today? This book intends to give a general survey of this sampradāya which is said to have been founded by the Siddha Gorakhnāth, known for his strong link to Haṭha Yoga. However, rather than to Yoga, the history and expansion of the Nāth sect are linked to its rich

legendary corpus. Dealing first with the marks of belonging (such as the huge earrings worn by the fully initiated Yogīs) which give the sect its unity, the book then focuses on its organization and explores the dialectics between the wandering Yogīs and the monastic settlements. The Nāth monasteries belong to two categories: the pañcāyati maṭhs, collectively owned and managed by the sectarian authorities, which ensure the permanency of the sect, and the nījī maṭhs, owned on a personal basis and transmitted from guru to disciple, which permits innovative initiatives. The book gives a detailed account of two pañcāyati monasteries, the Kadri Maṭh of Mangalore where its head's enthronement is spectacularly performed every twelve years, and the Caughera Maṭh of Dang Valley in Nepal, the royal foundation of which gives a glimpse of the complex relationships that can exist between monasteries and kingdoms. It then focuses on three nījī maṭhs: Amritashram in Fatehpur (Rajasthan), Ashtal Bohar in Rohtak (Haryana) and the Gorakhpur mandir (UP). Each of them shows a different mode of adaptation to a modern context and attests of the present importance and continuity of this pluri-secular tradition of asceticism.

Pañjābī-Aṅgrezī, Aṅgrezī-Pañjābī Kosha Alpha Edition

The blue-eyed boy of Indian publishing, Abhimanyu Razdan is known for his bestselling romances, which move his readers to tears. PaperInk, an up-and-coming publishing house, is looking for an A-list author who will take them to the next level. So, when Abhimanyu's contract with his current publishers comes to an end, PaperInk decides to swoop in. But Abhimanyu isn't quite like the emotional and sensitive characters in the novels he writes. Callous, egoistic and drunk on success, he gets into a hot argument with Asmita, PaperInk's literary fiction editor, even before his first meeting with them. Already put off, despite her apology, he is even more incensed when he discovers that Asmita looks down on popular fiction, especially the kind he writes. He vows to teach her a lesson that could jeopardize her

job. At each other's throats, Abhimanyu and Asmita are as different as can be, but fate has something else in store and they soon find that there is no running away from love.

Anand Sahib Routledge

This book presents high-quality, original contributions (both theoretical and experimental) on Information Security, Machine Learning, Data Mining and Internet of Things (IoT). It gathers papers presented at ICETIT 2019, the 1st International Conference on Emerging Trends in Information Technology, which was held in Delhi, India, in June 2019. This conference series represents a targeted response to the growing need for research that reports on and assesses the practical implications of IoT and network technologies, AI and machine learning, data analytics and cloud computing, security and privacy, and next generation computing technologies.
